

## Cordts Hose Co. Withdrew When Band Was Banned

When Union Musicians Refused to March With Cordts Hose Band in Firemen's Parade at Troy Band Was Withdrawn and Fire Company Also Quit—A Dry Convention.

The firemen's parade of the Hudson Valley Volunteer Firemen's Association at Troy on Thursday afternoon was halted when the union musicians in the parade refused to march as long as the Cordts Hose Company Band paraded. At the time the parade was halted Cordts Hose Company and its band had covered the greater part of the parade distance and were within about three blocks of the reviewing stand.

When the parade was halted and the request made that Cordts Hose band break ranks the members of Cordts Hose Company refused to march further without their band, and broke ranks also, and band and company marched back to the fire station in Troy where they had been entertained.

The trouble Thursday was an echo of the "fair" and "unfair" music question that nearly disrupted the successful firemen's convention held at Kingston last June. At that time the music for the convention was to have been played by the Excelsior Hose Company Band, but the local musicians' union raised objections and later the local convention committee reconsidered its action and awarded the band contract to Cordts Hose which furnished the music at the convention hall.

Broke Ranks Without Disturbance. Martin J. Schleede, foreman of Cordts Hose Company, stated this morning that the police of Troy did not forcibly eject the band from the parade but that when the request was made that the band fall out, the command was obeyed without disturbance and that the members of the company also broke ranks, refusing to march further without their band. Mr. Schleede said that there was no disturbance and that both the band members and the members of the fire company acted as gentlemen.

A Dry Convention. According to local firemen who returned from Troy Thursday night the convention was one of the driest in the history of the association. No beer was to be had at the entertaining fire houses and the only thing the boys had to drink was ginger ale. It is said beer was to have been provided for the visiting firemen but the prohibition enforcement agents notified the fire department of Troy that the serving of beer during the convention would not be allowed.

Band Are Company Members. When the question of "fair" and "unfair" music was brought up last June in Kingston the members of the Junior Order of American Mechanics Band were all made members of Cordts Hose and marched as members of the fire company in the parade Thursday until stopped.

The parade in Troy was not the equal of the parade held here last June, according to those who viewed it Thursday.

The band did not parade in the J. O. U. A. M. band uniforms but were equipped with new uniforms of the Cordts Hose Company Band. The name appearing on their drum was also Cordts Hose Band.

There will probably be further developments in the situation.

## ORDERED TO MAKE REPORT ON CRIME SITUATION

Toronto, Ont., June 21 (AP).—Alfred Cuddy, deputy commissioner of the Ontario provincial police, today was under orders to proceed to Windsor and make a report to A. H. Price, attorney-general, on the crime situation there as revealed by episodes in which rumrunners have been the principals.

While the provincial authorities maintain that the liquor export business brings these men to the Canadian side of the river and that the Dominion government is indirectly responsible for the conditions there, they claim they have been conducting campaigns to keep the district as free as possible from the undesirable element.

The deputy commissioner went to Windsor to investigate the abduction of the border cities star cameraman and the carrying of firearms by the rumrunners while on Canadian territory.

The attorney-general also wants to know about the recent shooting episodes around Belle Isle and Amherstburg.

## WGY Special Broadcasts

Schenectady, N. Y., June 21 (AP).—WGY, the General Electric Radio Station at Schenectady, will start a series of special broadcasts from 4 to 5 a. m. E. D. T., on Sunday morning, June 23, officials of the station announced today. The purpose of the broadcast is to determine the range of the 50-kilowatt station. The hour was selected as most of the stations are silent at that time.

## Recess and Every Family Reunion

The Recess and Every family reunion will be held June 29 at Ideal Park, Elmont, N. Y.

## To Announce Decision In Canfield's Case

Washington, June 21 (AP).—Prohibition Commissioner Doran announced today he had a complete report concerning conditions in the northern New York prohibition district presided over by Palmer Canfield as administrator with headquarters at Albany.

Doran, who said recently he was not satisfied with conditions in that district due to the sale there of illegal beer and who summoned Canfield here for a conference, said he

would announce his decision in Canfield's case within a day or two. Doran declined to give any intimation of what action he would take.

Doran said sometime ago Canfield reported no illegal beer was being sold in his district but special investigators found otherwise. He also received a verbal report from Lowell R. Smith, assistant administrator, who came to Washington to discuss conditions. This information did not jibe with that given the commissioner by Canfield.

## Excelsior Hose Co. Won Two Prizes

Had Largest Number of Men and Also Largest and Best Band in Firemen's parade at Troy Thursday.

In competition with the largest number of firemen ever to attend a convention of the Hudson Valley Volunteer Firemen's Association, Excelsior Hose Company, No. 4, of this city carried off two of the major prizes at the Troy convention on parade day. Excelsior Hose Company was awarded the prize given for the company having the most men in line, a large silver loving cup mounted on a high base, and also the prize for having the largest and best band in line. This prize was a massive clock. At the head of the company the combined members of the band and drum corps paraded. In the drum corps were 31 men and in the band 48 men making a total of 79 musicians.

On their return to Kingston Thursday night the band and drum corps and members of Excelsior Hose Company made a parade through the streets, first escorting Weiner Hose Company to its engine house and then parading uptown to Hurley avenue where a celebration was held. On their arrival in town the members of Excelsior Hose Company were equipped with brooms, signifying a clean sweep.

William B. Martin, foreman of Excelsior and the retiring president of the association, was presented with a gold president's badge such as is given each year to the retiring president of the association.

## Father Laicher's First Mass Sunday

The celebration of the first solemn high Mass of the Rev. John A. Laicher, the newly ordained Redemptorist priest, will take place at St. Peter's Church next Sunday morning at 10:30. The Rev. John Waldron, C. Ss. R., will preach the sermon. The choir under the direction of Prof. John Schwalbach and assisted by an orchestra, will render the music.

At 4 p. m., the newly ordained priest will officiate at the solemn devotion and benediction. After the singing of "Te Deum" he will impart his first blessing to all those in attendance.

At 5:30 a reception in honor of the young Redemptorist priest will be held in the school hall.

On Monday, June 24, the feast of St. John the Baptist, Father Laicher will celebrate a high Mass followed by benediction for the school children at 8:30 a. m.

Tuesday evening at 8, the graduation exercises of St. Peter's school will be held. Father Laicher, himself a graduate of St. Peter's, will address the children and the audience.

## Lutheran Synod Opposes Blue Laws

Chicago, June 21 (AP).—Over-strict Sabbath observances and blue laws were condemned today at the 24th triennial convention of the Evangelical Lutheran Synod as not faithfully interpreting Christianity and as causing harm.

"The Christian religion is not a creed of morbid restrictions and dampening prohibitions," it was declared in a statement of the church's code of belief. "The Lutheran Church believes that those teachers in the outward Christian Church who insist upon the old testament spirit and legislation for a day and age when old things are passed away are not only misinterpreting the evident intention of our Lord, but are guilty of the more serious sin of keeping men away from Christ."

## Enlist Gets Newburgh Contract

Spencer Enlist, local representative of the Pittsburgh Plate Glass Company, has secured the contract to furnish all the plate glass for the show windows for the Eastcoast copper store front construction for the new Newburgh Hotel building at Newburgh, a nine-story up-to-date structure.

## Volcano Lays Waste 30,000 Acres

Tokyo, June 21 (AP).—Although the eruption of volcano Komagatake, north of Hakodate, resulted in only a few casualties, 33,000 acres of fields and forests and 2,350 acres of arable land were laid waste. The entire countryside was buried under a mantle of stones and ashes.

## Raid Kelder's In Rosendale

Abram Kelder Arrested on Charge of Sale and Possession Under Jones Law—Seize Truck Load of Beer and Still in Rockland County.

Federal agents from the Kingston office paid a visit to Rosendale, where they visited Kelder's Hotel on Main street. Abram Kelder, alleged proprietor, was arrested on a charge of sale and possession under the Jones act. The agents allege they found a quantity of whiskey and beer on the premises. Kelder was arraigned before U. S. Commissioner Arthur C. Connelly and waived examination and was held in \$1,500 bail.

A truck loaded with beer was seized near Nanuet, Rockland county, by agents from the Kingston office and John Orlando of Nanuet was placed under arrest on a charge of transportation under the Jones act. Orlando was to be arraigned before U. S. Commissioner Crist at Middletown today.

While working in Rockland county the agents also located a still at Blauvelt. The still was in a dwelling house where it occupied the cellar while the family resided on the upper floors. On entering the agents found three 50-gallon stills, 700 gallons of mash and a quantity of finished whiskey. Charles Dasher of Blauvelt was arrested on a charge of manufacture and possession. This violation also comes under the Jones act. Dasher was to be arraigned before U. S. Commissioner Crist at Middletown today.

## Louise Morse Hit by a Truck

Louise, the ten year old daughter of Frank Morse of West Hurley, was struck this morning by a truck driven by Robert Sutton of Highland and was removed to the Kingston Hospital where an X-ray will be taken to determine the extent of her injuries. It is thought she sustained a possible fracture of the skull. Since the death of her mother several months ago the child has been living with her aunt, Miss VanVleet, at 167 Henry street.

According to the report of the accident made to the police department, Mr. Sutton was driving south on Wall street and as he approached the intersection of Henry street another car passed him from the opposite direction. As the other car passed his truck, the little girl ran from behind the other car directly in front of the truck.

Mr. Sutton stated that he applied his brakes but the child was too close to the truck and was knocked to the pavement when struck by the left front fender. Mr. Sutton stopped his car and picked up the child carried her to the sidewalk where he held her in his arms until another car came along and rushed her to the hospital.

## Wanted for Two More Shootings

Chicago, June 21 (AP).—"Wee Willie" Doozy, cop hater and desperado treading a trail paralleling the road the dashing, quick-firing "Terrible Tommy" O'Connor trod, had two more shootings to answer for today.

They call him "Wee Willie" because of his stature; they call him "Baby Face" because of his soft, clear complexion and the innocence of his expression. But the police and federal authorities see behind the child mask Chicago's most ruthless killer, most brutal gunman and an incorrigible foe of men in police uniform.

Already hunted for wounding of T. L. Jackson, ace of Chicago postal inspectors; for the killing of Charles Levy, chief of police of Berwyn, and for the shooting dead last Tuesday night of Leon Raymond, an Oak Park druggist, Doozy today was sought for the shooting and serious wounding of a restaurant owner and a policeman last night.

## SAVE MONEY IF BARNS ARE NOT PAINTED RED

Janetville, Wis., June 21 (AP).—Red, the color that helped build the fountain pen fortune of George S. Parker, is not much of a color for farm buildings, the manufacturer indicated today.

## Yale Again Wins First Two Races With Harvard

Sixth Time in Seven Successive Years Eli Oarsmen Win Preliminary Races On the Thames—Yale's Stock High in Making It a Clean Sweep.

By ALAN J. GOULD Associated Press Sports Editor

New London, Conn., June 21 (AP).—For the sixth time in seven successive years, Yale today swept the two preliminary races in the annual regatta with Harvard on the Thames river.

The Blue freshmen, in a spectacular closing spurt, came from behind to beat the Crimson yearlings by a scant three-quarters of a length in a two-mile race that was thrilling all the way. Immediately afterward, Yale's junior varsity eight, in workmanlike fashion, rowed to a decisive unexciting victory by four lengths over the Harvard jayvees.

With this twin triumph to her credit, Yale's stock remained high in anticipation of making it a clean sweep by winning the varsity four-mile race, scheduled this evening at 7 p. m. Odds on the Elis for the big event lengthened to three to one on the wave of Blue enthusiasm.

The thousands looking on from boats, shore and observation trains got their principal thrill out of the battle between the freshmen eights. From start to finish the opening event was an exciting affair, with what looked like a Harvard victory a half mile from the finish turned suddenly into a smashing triumph for the Eli youngsters.

## Faulty Steering

After the race officials reported Harvard lost valuable distance and possibly a chance for victory by faulty steering in the first half of the contest. Although the Crimson freshmen were in front over this part of the route, it was figured they lost at least a length and possibly more by wandering from their lane. It was said they had to veer in sharply to pass through the markers at the mile.

The official times were: Yale 11:07. Harvard 11:09:35. The junior varsity was all Yale. The Elis got the jump at the start, had a full length advantage at the halfway mark and rowed away from the Crimson jayvees easily to win by fully four lengths.

Harvard's boat seemed sluggish all the way, while the Eli craft, paced by W. R. Tappen, of Pleasantville, N. Y., last year's varsity stroke, never was in danger of being headed. It wasn't necessary, but the Blue put on a finishing spurt just the same to make it more decisive.

## BATHERS WANT TROLLEYS TO RUN TO POINT BEACH

To the Editor of The Freeman, Sir:

Kindly permit space for the following appeal which is of interest to the general public.

A number of people of the working class have requested me, the chairman of the railroad committee of the common council, to request the management of the Kingston Consolidated Railroad Company, to have their trolleys run as far as the entrance to the Kingston Point Bath Beach up to 10 o'clock at night.

The trolleys stopping at North street and Delaware avenue are a great disappointment to bathers.

It is felt that the management calling this inconvenience to the bathers, will grant the request.

Thanking you for your cooperation in this matter, I am

LEO W. CLARE, Alderman.

## GRANTED CERTIFICATE OF INCORPORATION

A certificate of incorporation has been granted by the Department of State at Albany to the Williams Lakes Corporation, with principal office at Binnewater, town of Rosendale. Capital \$25,000 to consist of 250 shares of \$100 value each. The petitioners were Gust Williams, Lizzie Williams, of Teaneck, N. J., and Frederick G. Gross, of Kingston. Purposes for which corporation has been formed are to purchase lands, either lease or acquire lands, erect buildings, conduct pavilions and carry on business of furnishing amusements to the public. The directors until the first annual meeting are Gust Williams, Lizzie Williams and Frederick G. Gross. Lloyd R. LeFerre is attorney for the corporation.

## MEXICAN WORKERS OPPOSE MODERN MACHINERY

Mexico City, June 21 (AP).—The Federation of Textile Workers, ending their convention here, passed a resolution opposing installation of modern machinery in Mexican plants and favored retention of the old-fashioned machinery. It was said use of more modern machinery would reduce the number of employees.

## Our Growing Population

The following births have been reported to the board of health: Mr. and Mrs. John Mooney. East Kingston, a daughter, Bernice Shirley, at Benedictine Hospital.

Mr. and Mrs. Bernard A. Feeney, 622 Delaware avenue, a son, Bernard, at Benedictine Hospital.

Mr. and Mrs. Francis Graney, 22 Adams street, a son, Robert, at Benedictine Hospital.

## Senators Plan for Tariff Contest

Republican Independents Prepare For Organized Movement to Confine Rate Increases to Agricultural Products and Reduce Some Industrial Schedules.

Washington, June 21 (AP).—Although congress was in recess, the contest to come over tariff revision in the senate in August stood out today in fairly clear outlines.

With the finance committee, under the sanction of a 39 to 38 senate vote, continuing its hearings in preparation for broad tariff revision similar to that approved by the house, the Republican independents who virtually wield a balance of power in the chamber are rapidly preparing for an organized movement intended to confine rate increases to agricultural products and to reduce some industrial schedules.

The groundwork for this movement was laid out at an informal conference in which the participants included six Republican independents, Senator Norris and Howell of Nebraska, Frazier and Nye of North Dakota, Brookhart of Iowa, and La Follette of Wisconsin, and one Democrat, Wheeler of Montana.

They are practically sure of the support of Senator Borah, Republican, Idaho, who proposed limitation of revision to agricultural and related products in the senate, and believe they will draw strength from most of the others among the 18 Republicans and 25 Democrats who were recorded, either by their ballots or pairs, among the supporters of his resolution.

## Defeat Led to Organization

It was the 39 to 38 defeat of that resolution which led the Republican independents to undertake the immediate organization of their movement, allowing time before the recess ends for them to acquaint the senators they hope to influence with the complex problems involved. What they will attempt in the way of reducing industrial schedules has not been defined.

None of the group is a member of the finance committee, which is considering all of the 15 rate schedules acted on by the house and has indicated its intention to present a bill proposing a wide range of agricultural and industrial rate increases.

While no effort has been made to bind the independent group to any general or specific proposition, various tariff schedules have been assigned to different members for specialized study and experts have been called in to assist with research.

## Hoover to Keep Hands Off in N. Y.

Regards Selection of Republican State Chairman as Purely an Internal Matter for the Party Organization.

Washington, June 21 (AP).—It was stated officially today at the White House that President Hoover will not interfere in any way in the selection of a chairman of the state Republican committee of New York to succeed H. Edmond Machold.

Officials said that any reports to the contrary were erroneous and that the President regarded the selection of the chairman as purely an internal matter for the state party organization.

One report was that Hoover was behind W. Kingsland Macy, who was a Hoover supporter both in the pre-convention and the general presidential campaign.

Machold has called a meeting of the county chairmen for next week to select his successor. He was made state chairman during the last presidential campaign and after the election was named by President Hoover as chairman of the New York state committee to deal with patronage matters.

The other members of that committee were Charles D. Hilles, Republican national committeeman for New York, and William H. Hill, who headed the independent Hoover-for-President movement.

After Machold's successor has been selected, some readjustment in the lineup of the patronage committee unquestionably will be necessary, but the President will not give that matter his attention until after the new chairman has been selected.

## PLAN FOR MERGER OF BIG FOOD COMPANIES

New York, June 21 (AP).—A plan for the merger of the Fleischmann Company, the Royal Baking Powder Company and E. W. Gillett Company, Ltd., into a \$430,000,000 concern was sent to stockholders of the companies by J. P. Morgan and Company today.

Acquisition by separate purchase of the coffee firm of Chase and Sanborn is also part of the plan.

Accompanying copies of the plan mailed to stockholders was a statement saying the boards of directors of the three companies had requested a committee composed of Thomas Cochran, of J. P. Morgan and Company; Max C. Fleischmann, chairman of the Fleischmann Company, and William Ziegler, Jr., chairman of the Royal Baking Powder Company, to prepare the plan for organization of the new holding company, for which no name has yet been selected.

## Kingston Hospital Nurses Graduated

Commencement Exercises of Kingston Hospital School of Nursing at High School Largely Attended—Prizes Awarded to Graduates—Interesting Address Delivered by Dr. Wilbur H. Lynch of Amsterdam, N. Y.

## City Water Had Objectionable Taste and Smell

Trouble Was Caused by Vegetable Growth in Reservoir Caused by Hot, Dry Weather—Water Perfectly Safe to Use—Many Complaints Made.

Those who used the city water Thursday evening and today noticed a decidedly objectionable taste and smell, and as a result many complaints were made to the water department. Health Officer L. E. Sanford also received many complaints regarding the water. The trouble was caused by vegetable growth in the reservoirs caused by the excessively hot and dry weather. It is expected that the situation will all be cleared up today and that the water supply will be normal. There is no danger in using the water, although it did prove disagreeable to the taste.

## The Trouble With the Water

At the water department this morning the following statement was made: "The trouble with the city water in taste and smell was due to the treatment of the water in the city reservoirs on Thursday for algae. In this treatment it is necessary to use copper sulphate, which produces a taste and smell which is objectionable. This, however, does not interfere with the purity of the water."

"The reason for the algae is the excessive hot and dry weather."

"It is expected with the treatment of the reservoirs with the copper sulphate that there will be no further difficulty until treatment may be necessary again."

"Our chemist advises that there is nothing impure in the water and that there is no danger in the use of the same."

## What Algae Is

Algae is a sort of vegetable growth, and green algae reaches its maximum growth during the months of June and July. The trouble arose in one of the reservoirs and water from that reservoir was shut off at once.

Copper sulphate is applied to the water by the use of a small boat which is equipped with an outboard motor and is sailed over the reservoir at a rapid speed while the copper sulphate is distributed to the water from the boat.

Those who drank the city water Thursday evening and today found it had an odd taste. One woman said it tasted like dirty potato water; others thought they detected a slight ammonia taste. It would seem, however, that the odor was due to decayed algae growth caused by the killing of the vegetable matter by the use of the copper sulphate.

## Oppose Church In Politics

Methodist Bishop Denny Fears It Means Ultimate Division of Methodist Church—Airs Views at District Conference.

Richmond, Va., June 21 (AP).—Bishop Collins Denny, of the Methodist Episcopal Church, south, has declared himself as emphatically opposed to the mingling of the church and of churchmen in politics.

He gave his views on this subject yesterday in appearing in a conference of the Richmond district of the Methodist Church in opposition to a resolution being sent to President Hoover voicing the hearty support of the conference to the president's activities and pronouncements on law observance and enforcement.

While agreeing with the spirit of the resolution, the bishop said, he felt it was not proper for the conference, as a unit of the church, to take such action.

"I feel very deeply about this," Bishop Denny said. "I do not think it is within the sphere of the church to do such things. I fear it means the ultimate division of the Methodist Church, for many will refuse to be dragged, as a church, into politics."

The conference, however, by a heavy majority voted to adopt and forward the resolution to Mr. Hoover.

## In Police Court

Ernest Proper, Frank Harvey and Peter Dunn, arrested Thursday for train riding, in police court today, were given suspended sentences of five days each in jail provided they left town at once. William Edsworth of this city was sentenced to thirty days in jail for public intoxication.

The graduating exercises of the 1929 class of the Kingston Hospital Training School for Nurses held at the Kingston High School auditorium Thursday evening were largely attended and proved to be especially interesting, both because so large a number of graduates made up the class and because of the unusual but very telling address by Dr. Wilbur H. Lynch, superintendent of schools of Amsterdam, N. Y.

The stage presented a charming appearance with its tall palms and the footlights danked with baskets of flowers, gifts to the graduates. Seated on the stage were members of the board of managers and the staff as well as the superintendent nurse, Miss Allen, and the members of the graduating class, fifteen in number.

The Rev. Dr. Frank B. Seeley, pastor of the Fair Street Reformed Church, acted as master of ceremonies, and called upon Rabbi Rose of Temple Emanuel to deliver the invocation. This was followed by the singing of the Class Song, set to the music of Handel's "Largo," Mrs. Milfont presiding at the piano.

Dr. Seeley in behalf of the board of managers expressed the regret of the board as well as of the graduates at the enforced absence of the president of the board, Edward Corken-dall, who had asked Dr. Seeley to preside for him. Dr. Seeley also read a telegram of congratulation from George Burgevin, a member of the board who was absent attending the graduation of his son.

## Miss Allen's Report

Dr. Seeley then presented Miss Allen, head of the training school of the hospital, who gave the following interesting report:

It is a very pleasant duty to present the report of our school activities for the year 1928 to 1929.

However it must be regretted that Miss Marguerite C. Holmes, director of nurses for that period, is not present to make this report as she has been largely responsible for the work. Our good wishes follow her in her future activities.

For Miss Best, our instructor for the past two years, we wish all success as she returns to college to continue her studies.

An additional instructor position (chiefly for follow-up work) was granted in January by our board of directors, and this position has been credibly filled by Miss C. Eileen McGuire.

Our nurses are most enthusiastic about their living conditions which are superior to the nurses' quarters first occupied by this year's graduating class. The bedrooms are bright, airy and comfortable.

The large living room is in use every hour. Its attractive appearance has been much enhanced by the generous gifts of friends.

A combination radio and pan-trope, latest model, with records, was given to us by the Hospital Auxiliary. This has furnished music for dancing, early and late. It enlivens the leisure time of the girls when they seek amusement to counteract the effect of the hospital atmosphere and duties.

The nurses are deeply appreciative of the active interest displayed in their welfare by Mrs. Charles Tappen and her corps of loyal associates, and we thank them heartily for their support and cooperation.

The talented nurses, and those not so talented, have been remembered through the generosity of Dr. and Mrs. Chandler who gave us a lovely grand piano which seemed to be the finishing piece in a very harmonious setting. The importance of a fine musical instrument, and tasteful surroundings, with its resultant effect on the development of the student from an aesthetic point of view, cannot be overestimated.

It seemed desirable to stress the social side of the nurse's education so that and receptions have been arranged frequently at which the students shared the responsibility.

This was made possible with the assistance of our Alumnae Association who presented a tea set to the school as another token of their interest in the work. Then, too, the Alumnae members are entertaining tomorrow evening, with a formal dance in honor of the graduating class.

Such friendly relations and comradeship must be of lasting benefit to the hospital through the school and its graduates.

Tony Roncevic, a staunch friend of our nurses (who has been a patient with us over a lengthy period) found pleasure in giving a handsome tea wagon as his part in furnishing the living room.

As a result of various student activities, such as making and selling sandwiches, candy, etc., beauty parlor work, card parties, raffles, etc., enough money was secured to purchase a new tea wagon.

## Overnight News Gathered by A. P.

(By The Associated Press)

Domestic:

Columbus, Ohio.—Dr. James H. Mack confesses to murder of Theodore K. Rex, girl medical student.

Washington.—Senate Republican independents from 1902 to 1912 term increases to agriculture.

Chicago.—Gorman identified as "Baby Face" Willie Doody, wanted for several killings, shoots policeman and escapes in two-mile chase.

Norfolk, Va.—Directors of Knights of American Protestantism denounce "political activity" of Bishop James Cannon, Jr.

Richmond, Va.—Bishop Denny predicts Methodist schism if church and churchmen continue political activities.

New York.—Fleischmann Company, Royal Baking Powder Company and E. W. Gillett Company, Ltd., in proposed \$420,000,000 merger by J. P. Morgan &amp; Co.

Washington.—Sir Eame Howard and Borah discuss naval armament.

Des Moines.—Shields named acting president of Des Moines University "for purposes of reorganization."

## Baseball Team Puts This Town on Map

Imbler, Ore.—This little eastern Oregon town, not listed on some maps, and located in the local guide as "Imbler No. 36000," has a high school baseball team that holds a record of two to 0 in its games this season, as well as the title of being one of the best high school teams in the state.

In the middle of the last 20th no man after with Joseph High, which Imbler won, 12 to 0, the local team took March 1929 out of the pitcher's box and placed him in the batter's box. High had led the opponents in hits and his successor continued the remarkable twirling. Records show that Imbler has performed similar feats in previous years.

## TEXAS CITY HAS HOT DOG PHILOSOPHER FOR MAYOR

Official is Fat, Jolly Man, Interested in Making People of City Happy.

Dallas, Texas.—Hot dog philosophy in Dallas, Texas, elected J. Waddy Tate mayor of Dallas recently over a candidate who is a prominent banker. Known as the hot dog philosopher, Tate was chosen by a vote of the common people. He made the race as an independent candidate. His total expenditures amounted to \$218 during the month's campaign, while his opponents spent \$150,000.

The high point of Tate's campaign was a hot dog party for 10,000 citizens. All who attended wore blue shirts—a labor symbol. This was the largest political rally ever held in Dallas. Tate's hot dog philosophy is based on a series of platform planks, one of which would permit erection of hot dog stands on the shores of a municipal fishing resort. His opponent would have restricted the resort against such buildings.

"I would rather see a happy group of poor picnickers buying nickel hot dogs after a day's recreation than have them pay a dollar for chicken sandwiches," Tate said. Other reforms he proposes include three eight-hour shifts on all street improvements where construction disrupts traffic. Promises of increased salaries for trolley operators and paid vacations for city labor were dubbed foolish by Tate's opponents. Their reference to them as hot dog philosophy was taken up by Tate and turned to his advantage.

The hot dog mayor took office recently after an inaugural ball and public installation, the first events of this kind ever held by a city official in Dallas. The dance was held for a local charity and a dime admission was charged. Tate explained he wanted the fee small so his poor folk friends could attend.

A resident of Dallas for thirty-one years, Tate is a born Texan. A spell-binder himself, he refuses to listen to unbecoming artists. He convinced the public that donkeys in the parks for the children were more important than theoretical tax issues.

In 1897 Tate became general agent for the Chicago Great Western railroad for the Southwest territory, with headquarters in Dallas. This was the pioneer line to attempt to get Texas business. Tate remained with the company until 1928, when he was offered the vice presidency of the line. He refused because it meant leaving Dallas.

Tate is a fat, jolly man, interested in making Dallas folks happy. He was reared in Houston, Texas, served as a printer while a young man, and still holds a card as an honorary member in Typographical union No. 87.

## Michigan Man Sticks

### Close to Home 56 Years

Cadillac, Mich.—David Whaley, city truck driver, claims a record in remaining close to his birthplace in the fifty-six years of his life.

Whaley never has been more than five miles from home. He is one of the eleven children of Thomas Whaley, who settled on a farm one and a half miles from Cadillac sixty years ago. He has never been out of Wexford county and not far from the city limits of Cadillac.

In sixty years there have been only three deaths in the Whaley family. A son, William, died ten years ago at the age of fifty-six. The mother died last January when ninety-eight years old. The father was eighty-one when he died several years ago.

The rest of the family, with sixty-eight descendants, live on farms near here or in the city, with the exception of one girl, who moved to a suburb of Boston thirty years ago.

## Three-Year-Old Crosses Atlantic by Himself

Gothenburg.—Among the youngest globe trotters in the world is Karl Henrik Osterman, the three-year-old son of a Swedish-American couple, who has just completed a trip all by himself from New York to Gothenburg on board the motor ship Kungsholm. Far from having a lonely crossing, the lad became immensely popular with the passengers and enjoyed every minute of the journey. The children's nurse of the Kungsholm acted as his "governess."

## Loving Cup for Perfect Baby Boy

The National Ulster County Bank & Trust Company today presented a very beautiful loving cup which is now on display in the windows of the baby pajamas headquarters to Ulster county's most perfect baby boy in the first division of the 100 per cent Perfect Baby Contest. This, however, is but one of the many gifts that are being sent to the headquarters for the 101 babies now entered in the finals of the Fireman's Baby Parade.

Due to the convention in Troy, all members of the various committees were out of town and for that reason there was no count of votes Thursday night. The committee states that all votes will be counted tonight and the standings published Saturday. Tests for the merchants, manufacturers and auto show are due in town Wednesday and Thursday workmen will commence erecting the tents and the buildings of the many booths that have already been reserved for this part of the exposition.

All mothers are requested to bring their baby carriages and material to the pageant office Saturday of this week so that the industrious boys may start the building of the floats.

- 1 TWO FOLD POLISHING (not scouring) restores natural brilliance of enamel.
- 2 QUICK AND DELIGHTFUL REFRESHMENT for the whole mouth—which lasts!
- 3 ALL THE GOOD, DESIRABLE RESULTS NOW COMBINED!
- 4 UNUSUALLY QUICK, THOROUGH ACTION; results are complete, each time.

Go to your nearest retail store, right now. Take prompt advantage of this unusual big-value offer. It means WHITER TEETH—QUICKLY.

## Feels Like A New Woman Since Using New Health Tonic

Local Lady Tells How Nu-Erb Rid Her Of Indigestion, Heartburn and Kidney Ailments.

"Because of the outstanding relief that I have obtained through using the Nu-Erb, I feel it my duty to recommend it to others," said Mrs. Sidney Weil, 58 Meadow St., Kingston, N. Y., in a recent interview.

"For the past two or three years, I have endured continual misery and distress because of indigestion and sourness of my food after meals. I'd get severe cramps through my stomach and attacks of heartburn from which I just could get no relief. My kidneys were in a weakened condition causing rheumatic pains through my limbs and they disturbed me several times each night.

"I used many different medicines, but none of them ever helped me until I started with the Nu-Erb. In a very few weeks, it has entirely overcome that indigestion and distress in my stomach. I can now eat most anything I want and am never troubled with sourness or those gassy pains. Nu-Erb has also strengthened my kidneys so that the pains have left my back and limbs and I sleep the whole night through without being disturbed. This splendid medicine deserves full credit for having made me feel like a new woman and I gladly recommend it to others."

If you feel played out, can't digest your food, can't work, can't play, have lost your courage and

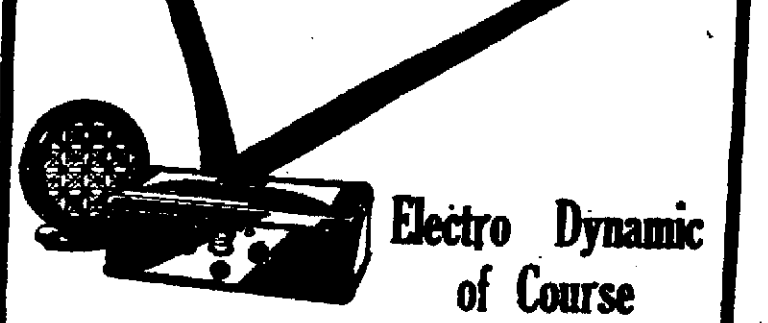

THE NU-ERB MAN.

don't know where to look for help, give Nu-Erb a chance to help you and the chances are ten to one you will find it the best friend you have ever had. Nu-Erb is purely herbal and as it contains no harmful drugs or narcotics it may be safely used by young or old.

McBride Drug Store, 312 Wall St., is headquarters in Kingston for Nu-Erb. Go see the Nu-Erb man now making his headquarters there and let him explain to you the merits of this remarkable medicine.

## Make a note of this!

**ELEANOR GUNN  
ON FASHIONS**

**HATS ASSUME A NEW POSE ON  
THE HEAD—EVEN TILT  
A BIT.**

New York—One thing seems reasonably certain, the vogue of the costume hat remains. While it is too early to be seriously concerned with rumors of fall millinery, it is a guide to know that milliners are doing laudable experimental work on developing the hat which is fashioned of the material which makes the coat. This is one of the most arresting summer developments, and coupled with the fact that women have reverted to straw, makes the millinery story a more interesting one than when it was entirely concerned with felt.

The sensational development is of course that the mode Espagnol is with us. Spanish hats are nothing if

*Paris*  
Capes are of less importance than they were but here and there a new one pops up like Molyneux's black cloth coat with cape attached to the sleeves. It has a shawl lamb collar.  
*Rita*

Black and Green Taffeta Are Combined With Black Straw to Make the Turban. From Marie Alphonse. Which Is Finished With a Bow of the Two Taffetas. Low on the Left Side.

The Other Model, From J. Suzanne Talbot. Is a Little Turban in the Beret Style of Red Lace (Paris Meme) With a Red Perroquet Head as Trimming.  
(Copyright, 1929, by Fairchild.)

not picturesque, in themselves and are furthered in this effect by the angle in which they are worn. One

hardly expects women to assume this new tilt without some misgiving, yet the position of the hat on the head has changed mightily during the past year. From being solidly implanted and all but covering the eyebrows, it was cut away to reveal one, then scooped out to reveal two and a bit of the brow for good measure. Brims then started to be elongated at one side, or at some given point with the result that hats took on individuality and from that moment one never felt quite sure what tack they would take. Seemingly affairs at Barcelona determined the note they were to strike for French milliners became actively engaged in creating all sorts of stunning interpretations of national Spanish costumes. The pompon returned, and even the flower tucked away under the brim. Reds, yellows and black were highlighted and while there is nothing particularly Spanish about the nose veil, it suggests a renewal of interest in lace as a further development of the idea.  
(Copyright, 1929, by United Feature Syndicate, Inc.)

**ST. REMY COMMUNITY  
CLUB ACTIVITIES.**

The Community Club of St. Remy held their regular meeting in the lecture room of the church on Thursday night, which was attended by a large majority of its members. A representative of the Central Hudson Gas and Electric Corporation was present and gave the club members some useful information regarding the lighting of the highway through the village.

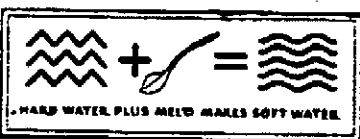

The chaplain, the Rev. Phillip Goertz, extended an invitation to the club to attend church services on Sunday afternoon, June 23, and it is hoped that a large majority of the men will respond to the invitation to at least show their appreciation to the Rev. Mr. Goertz for his untiring efforts in helping to make this club what it is.

The club will not meet again until the first Thursday in September, at

which time several other men of the community have expressed a desire to become connected with the organization.

**Prolific Hymn Writers**

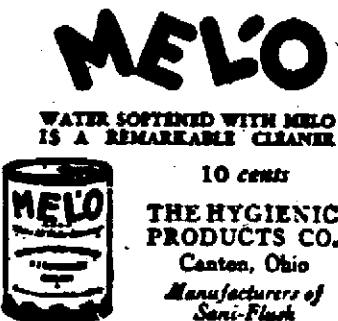

Upwards of seven thousand hymns Charles Wesley is known to have written, John Wesley translated many from the German, especially from the Moravian books. Some of their followers Oliver, Perrenet and others also wrote hymns.

**Keep your  
refrigerator clean**

Do away with that sharp razziness of refrigerated foods. Clean your refrigerator with Melo. It cuts grease. It dissolves dirt. It makes the inside fresh and bright.

Melo is a useful household cleaner, because it softens that hard city water so difficult to wash with. It makes clothes whiter. The scummy ring on the dishpan disappears. Melo in the bathtub gives delightfully soft water for bathing. It saves soap, from 1/4 to 1/2 the amount generally used. Your grocer has it.

**10 Yds.**

Bleached chambray finish longcloth in a fine thread quality for gowns, pajamas, etc.

**CRETONNES**

**Yard 19c**

26-inch new summer cretonnes in a large selection of light and dark colors. Pretty patterns.

**Damask Table Cloths**

**58 x 72 inch \$1**  
mercerized damask table cloths in plain white and colored borders.

"That stuff I drank last night must have been paint remover."

"Why?"

"It took all the enamel off my teeth."

Our landladyman has the wisdom of a Solomon. When he can't decide whom a shirt belongs to he splits it in two.

The tallies are old stuff now, but newspaper photographers continue pulling the one about alienating those who read the titles aloud.

In a certain western town a beautiful chorus girl sued a rich banker for breach of promise and was awarded ten thousand dollars. Shortly after leaving the court she was hit by a street car and had eight ribs broken. The same judge awarded her eight dollars.

Moral: Never play with a woman's heart—kick her in the ribs.

**Talk About Preparedness!**

The late Thomas Fortune Ryan always went half way to meet opportunity. He invariably kept between \$25,000,000 and \$40,000,000 cash on hand to pick up stray bargains.

An old time gas maker died and went to heaven. The receiving angel asked him if he would like anything in particular.

"Yes," said the gas maker, "I always like chools. Get me 10,000 sopranos, 10,000 altos and 10,000 tenors."

"But," returned the angel, "don't you want some basses?"

"No," said the gas maker, "I'm singing bass."

"My Jiggers," asked the professor in the freshman class, "what three words are used most among college students?"

"I don't know," replied the student.

"Correct," replied the professor.

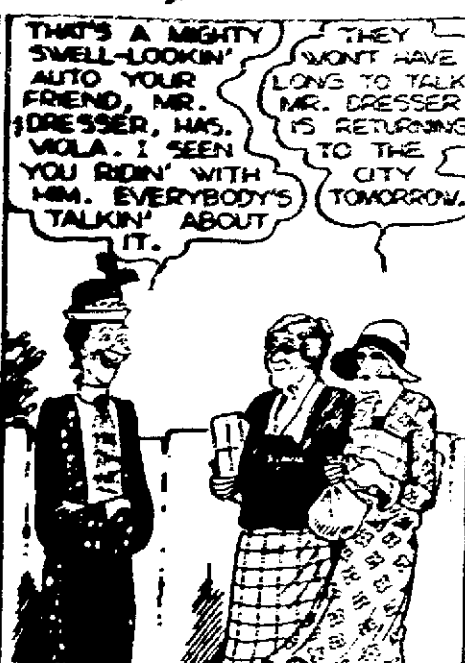

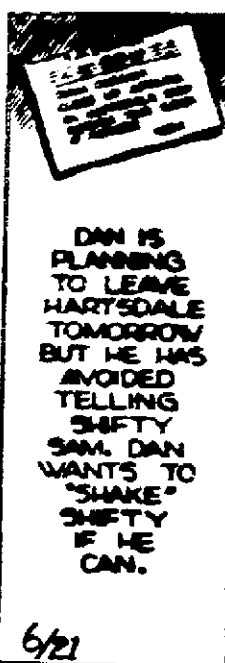

Some can forgive and some can forget, but few can do both.

First Stenog—Doesn't your boss ever take you out to lunch?

Second Ditto—No, the way that old sink treats me you'd think I was his wife.

It used to be that only a certain

## GAS HUGGIES—News for Shifty.

kind of woman painted her face; now both the certain and uncertain kind do it.

Boy, selling flowers on street: Buy some flowers for your wife, Crusty Bachelor: "Haven't got a wife."

Then buy a bunch to celebrate with.

**The Little Mother**

In a church, at the front, her brother, aged eight, is being christened.

Little Girl (hoarsely): Behind his ears, too, Reverend Smythe!

Many fail to reach a ripe old age because of having lived a rotten young one.

A man is of little count to the world who spends all his time counting dollars and cents.

The night was made for sleep and the day for the insomniac to lie about how little of it he gets.

"What did the boss do when you told him it was triplets?"

"He promoted me to the head of the production department."

If germs cause disease what causes germs? Don't all answer at once.

**ZENA.**

Zena, June 20.—Children's Day will be observed in the Reformed Church at Zena on Sunday evening, June 23, at 8 o'clock. There will be special music, instrumental, quartets, duets, solos and group singing and recitations by children. The public is cordially invited. There will be no Sunday school or afternoon services that day.

Beginning Sunday, July 7, services will be held regularly in the evening until further notice. The Sunday

school will be held at 7 p. m. and services at 8 p. m. daylight saving time.

Mrs. Anne Bronson returned to her home after several weeks visit in New York with her daughter, Mrs. Carl Denner. She is under the doctor's care there for her eyes and goes back next week for more treatments. Walter Bronson is in Zena for two weeks' vacation.

Ronald Comstock was hurriedly operated upon for appendicitis last Sunday at the Benedictine Hospital.

He is doing as well as can be expected.

The Ladies' League of Zena will hold their regular meeting Friday afternoon. All ladies are urged to be present.

A great majority of the children have taken advantage of the toxin-anti-toxin clinic at the Athletic Hall in Woodstock. The second treatment will be administered next Saturday morning, children to meet at the school house at 9:30 a. m., as heretofore. If there are any par-

ents who wish their children inoculated against the dreaded diphtheria, there is still a chance to have the three treatments free of charge by sending the children to Woodstock next Saturday for the first treatment.

Helen Long, Agnes Hung, Edna Holmzer and Fred Thais have taken several of the Regents' examinations at the Woodstock school.

School closed officially last Friday for the season with a grand picnic in the woods arranged by their

teacher, Miss Allen. The children were treated to ice cream, cake and candies and from reports they all had a good time. Miss Allen leaves Zena today for Florida with her sister, Anna. Zena is sorry to see Miss Allen go, although she deserves a good long vacation.

**He Has To**

The more ill-will a man is in spending money on a vacation, the happier he becomes when he returns home.—Aitchison Globe.

# If every car was labelled with the Name of the Gas it carried—

we'd need no other advertising for

Three cars of the same make lined up abreast on a wide boulevard. Presto! The red light changes to green. Zip!... One car flashes away from the others like a greyhound from a pair of lumbering English bulls.

What made the difference? A few months ago, you'd have said "An extra quality gasoline at an extra cost." But today, the well-posted motorist would say: "It's probably *Hi-test* TYDOL. An extra quality gas *without any extra cost.*"

*Hi-test* TYDOL, a high-test, anti-knock, super-power gasoline, at the price of ordinary gasoline, is the most notable success in Tide Water's fifty years of progressive history.

But if all the cars using *Hi-test* TYDOL, in brilliant and outstanding performance, carried its name on their gas-tanks, we couldn't fill the demand.

So, luckily, until all motorists know about it, there will be plenty of *Hi-test* TYDOL for you!

TIDE WATER OIL SALES CORP., 11 BROADWAY, NEW YORK, N. Y.

*Climbs 5 miles with Hi-test TYDOL!*

Certified by officials of the National Aeronautical Association, Martin Jensen proved the power of *Hi-test* TYDOL by climbing 26,600 feet—a world's altitude record for a motor car gasoline.

He also used VEEDOL MOTOR OIL

## DIAGNOSIS OF "TB" NOW SURE

Tuberculin, Used in Test, Has Been Reduced to Absolute Purity.

Atlantic City.—Two great scientific advances of far-reaching consequences in the diagnosis and treatment of tuberculosis were disclosed in reports rendered to the National Tuberculosis Association in annual session here. Tuberculin, the substance used in the test for detecting tuberculosis in human beings as well as cattle, has been reduced to absolute purity, something heretofore never achieved, so that it can be supplied wholly free from other substances which have affected the accuracy of these tests in the past. The details of this process were described by Dr. Edmund R. Long and Dr. Florence R. Seibert, of the University of Chicago. The second research achievement consists of the production of a wholly new mechanism for testing the individual for the presence of tuberculosis, which is expected to render the detection of this disease possible within three or four days of infection instead of an average of two months afterward, as is at present the case. This was disclosed in reports submitted by Drs. Florence R. Sabin, C. A. Dunn and C. E. Forkner of the Rockefeller Institute for Medical Research. Both these scientific groups conducted their studies in co-operation with the medical research committee of the National Tuberculosis Association of which Dr. William Charles White of Washington, is chairman.

Makes Diagnosis Exact.

Diagnosis of tuberculosis will become much more exact by reason of the perfection of tuberculin to crystalline purity, according to scientific authorities in attendance at the meeting. Particularly in the examination of children suspected of infection will the new tuberculin be of great value, for heretofore it has not been certain, in the individual case, that a positive reaction was not caused by one of the various impurities which were known to exist in the tuberculin used. The skin test has always probably been complicated by elements in the test fluid other than those which indicate the disease. It will also affect directly the testing of cattle, and reduce the number of animals which are slaughtered because they react positively to tuberculin and yet show no signs of tuberculosis.

Research work is to be continued by Doctors Long and Seibert of the University of Chicago to discover to what extent the avian type of the disease in chickens and the bovine type in cattle may be the cause of the human disease. Authorities state that the work already done in eliminating foreign elements from tuberculin will affect the diagnosis of other bacterial diseases in a similar manner, rendering methods much more accurate and dependable.

The new test devised for the earlier diagnosis of tuberculosis by members of the Rockefeller Institute utilizes a small quantity of the blood of the patient. The red corpuscles are removed and the remaining serum diluted and placed in a test tube containing one of the fatty fractions of the tuberculosis germ, known as phosphatide. If the patient has tuberculosis there will be a precipitate, but if the disease is not present, nothing at all will occur. This new test will also be of use in distinguishing between cases of meningitis which are tuberculosis and those which are not, something which science has heretofore been unable to do early in the disease and accurately.

Result of Long Study.

In commenting on these two achievements, Dr. Kendall Emerson, managing director of the National Tuberculosis Association, stated that these definite and significant results are the reward of seven years' work by the scientists engaged in various related realms of research. This particular branch of research has been directed under a system of counselors drawn from leading scientific men of the country. From time to time these men have held meetings, listened to reports of progress by different workers in allied fields, and as a "jury of scientific peers" have assisted the plan of attack on problems, advising lines of effort to be pursued.

The "chemical jury" of the research committee which established the base line for these studies includes: Dr. Paul A. Lewis, Rockefeller Institute; Dr. Allen K. Krause, Johns Hopkins hospital; Dr. Edmund R. Long, University of Chicago; Dr. Eugene L. Ople, H. R. M. Landis and Charles J. Hatfield, Henry Phipps Institute; Prof. Treat E. Johnson, Yale University; Prof. Hans Zinsser, Harvard Medical School; Prof. John J. Abel, Johns Hopkins Medical School; Prof. A. N. Richards, University of Pennsylvania; Dr. Lindsay R. Williams, National Tuberculosis Association; Dr. William Charles White, Washington.

How Pays Passage

Fulton, Mo.—In defiance of postal laws prohibiting compensation for rural mail carriers on their rounds, a "know-away" hen was found by Curtis Overstreet, a carrier out of Fulton. Hearing a cackle, Overstreet found the hen had paid for its passage with an egg, newly laid under the seat.

KRIEPELBUSE

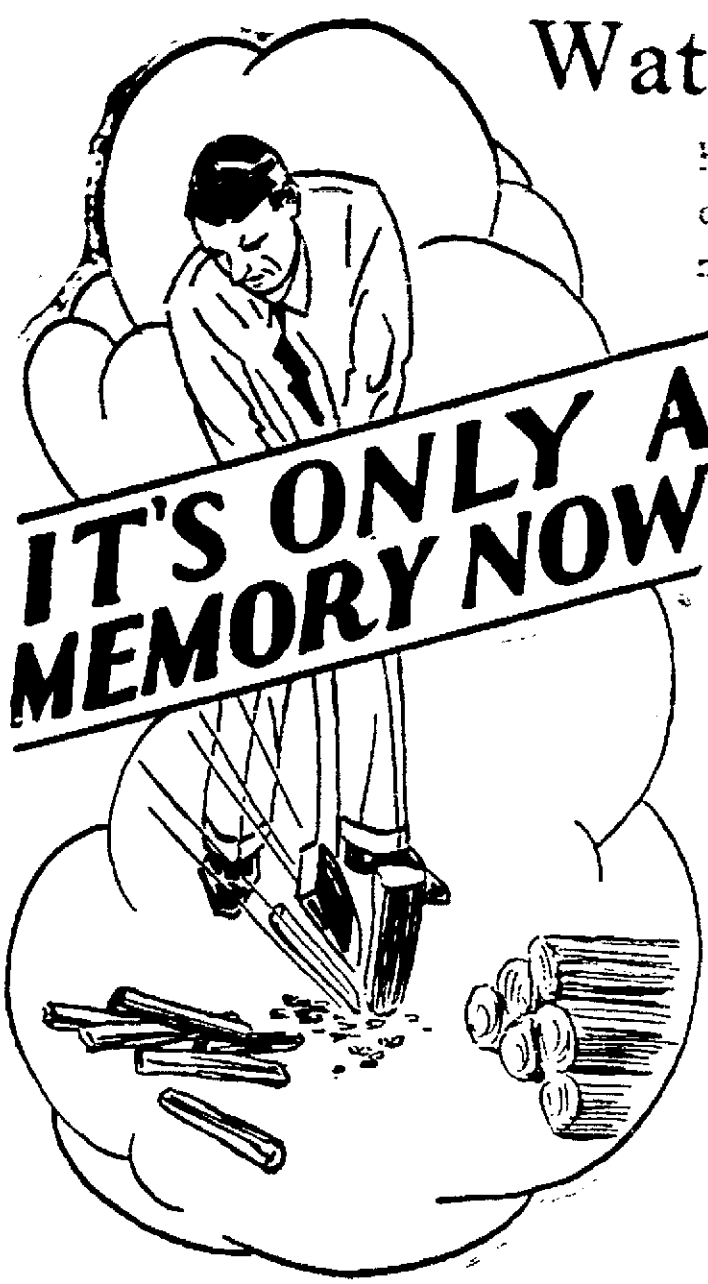

Krippebush, June 20.—Mr. and Mrs. Royallton Osterhoudt have moved to John Smith's house.

School closed Friday with a picnic for the children. All were sorry to see Mrs. Waters go and hope she will be back next year. There will be a party at Necha's.

Ball Friday night, June 21. Supper will be served from 5 o'clock. All are welcome.

Sympathy is extended Milard Van Aken and family in the loss of a wife and mother.

## The REX PATROL Gas Water Heater

has provided our home life with an undreamed of comfort and convenience. With no effort or worry on our part, we have a plentiful supply of hot water always available. It is no longer necessary to supply kindling and other fuel to start a fire for heating water, and there is no waiting for it to heat.

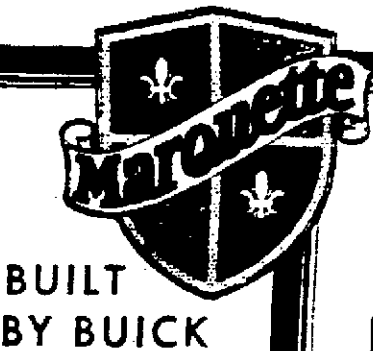

THE REX PATROL Gas Water Heater can be connected easily to your existing range boiler. It is thermostatically controlled and operates automatically. So that no excessive heat may be lost from stored hot water a jacket of high insulating value is supplied with the equipment and is simply laced around your boiler.

# Marquette

66

BUILT BY BUICK

## FINE-CAR FEATURES

COMBINED ONLY IN MARQUETTE IN THE \$1000 CLASS

It's pretty hard to catalogue a car like the Marquette—and give anything like a true idea of what you get in this car in the \$1000 class. This new six is such a revolutionary value that you've actually got to see and drive it to realize what a great car it is!

Just as an indication of the value, rare value—in this splendid new six—here are a few of more than 66 fine-car features that it embodies—features combined for the first time on a car in the \$1000 field.

- Long rakish lines—114-inch wheel base.
- Closed Bodies by Fisher.
- Non-glare Fisher VV type ventilating windshield.
- New type mohair upholstery—has rubberized back.
- Deep upholstered cushions.
- Spacious rear seat.
- Adjustable front seat.
- Remarkable power plant—motor develops 67.5 brake horsepower.
- Piston displacement 212.8 cubic inches.
- High-compression cylinder head.
- Rubber engine mountings.
- Counter-balanced crankshaft.
- Thermostatically-controlled water cooling.
- Completely sealed engine.
- Forced lubrication.
- Lovejoy hydraulic shock absorbers.
- Four-wheel internal-expanding brakes.
- Special self-adjusting spring shackles.
- Adjustable steering wheel.
- Radiator of extra capacity.
- Hydrostatic gasoline gauge on dash.
- Coincidental ignition switch and car lock.
- Guide tilt-ray lamps.
- New construction of headlamps.
- Chrome-plated cowl lights and cowl moulding.
- Running board fully bound.
- A host of other extraordinary features that combine to make the Marquette America's most complete car in the \$1000 field.

## Drum Corps Will Go to Louisville

Local Organization Again to Take Part in National Competition—Other Important Trips to Be Made in Summer and Fall.

A recent meeting of the American Legion drum corps it was unanimously voted to attend the national convention of the Legion in Louisville, Ky., next fall.

The local boys have earned a wide reputation since they were organized about a year and a half ago and Kingston's drum corps is highly spoken of not only in New York state but outside of the state.

Through hard work and economical administration, the drum corps has bought some new equipment, including new bugles, and has a cash balance in its treasury.

On June 24 the corps will lead the local Knights Templar in their state convention parade in Albany, when 10,000 Knights will be in line.

On July 4 the local musicians will perform at Phoenixia and Delhi.

In September they will attend the state convention of the American Legion in Utica and show that city what Kingston has to offer. In Utica they will compete in the state championship competition where last year they won third prize. Having gained a lot of experience since then they hope this year to do better.

On September 29 they leave for Louisville for the national convention parade and for the national drum corps competition. Last year in San Antonio, Texas, the local boys finished among the first 15 in the competition of all the Legion drum corps in the United States. In the finals, however, they did not finish in the money, the first prize being won by Miami, Fla., the second by Portland, Ore., and the third by Frankfort, Pa. For a drum corps organized only a year, this was an astonishing accomplishment which won the Kingston Legionnaires congratulations from all over the country. However, they have learned a lot since then, and have a bag of new tricks up their sleeves in the way of playing and drilling which are expected to "bring home the bacon" from Louisville.

The Kingston special will leave here for Louisville on September 29 and a large number of Legionnaires from the Third district have already engaged reservations on the train.

At the Post meeting tonight at the Legion building the drum corps will have an important announcement to make. It will give an opportunity to any Legionnaire to get a free trip to Louisville, with all expenses paid for one week. All Legionnaires interested in attending the national convention are asked to attend the meeting.

### KRUMVILLE.

Krumville, June 20.—Mrs. Benjamin Merrihew spent Tuesday with her daughter, Mrs. Clarence Eckert. Grover Winchell was a caller in this place recently rewriting insurance policies.

Mrs. Katherine Merrihew served refreshments to her pupils on Tuesday and the children are delighted to know school is closed.

Scott Schoonmaker and family of Kingston called on the families of Clarence Donohue and Elsie Merrihew on Sunday.

Benjamin Merrihew's ice house burned one night last week.

There will be a big celebration at the Reformed Church in this place on the afternoon and evening of July Fourth. A brass band from Accord will furnish music. There will be refreshments and excellent suppers until all are served. The grounds will be illuminated with electricity and some time during the evening there will be a speech by the Rev. Thomas S. Braithwaite. A good time is promised all.

Mrs. Harold Davis of this place is in Kingston with her mother, who is very ill at the Benedictine Hospital.

Miss Hazel Burgher who has been staying at her brother George's in Brodheads has returned home.

Mr. and Mrs. Joseph Seibert of Staten Island, and two friends, spent the week end with Elsie Merrihew and family.

Henry Merrihew, a pupil of the

Krumville school, was the only one allowed by the teacher to take Regents' examinations.

Many people from this place attended the wedding of Ruth Hoyer and Clifford Donohue; also Ernestine Heeler and Ralph McRoberts, who were married by the Rev. O. S. Rice, at the Olive Bridge Church on Sunday.

All are sorry to hear that Clarence and daughter, Luin Mae Eckert, are suffering with measles.

Matthew Deane and family of New Paltz called on his many friends in this place on Sunday.

The exceedingly warm weather has driven the society girls of this place to copy the Fifth Avenue styles by going stockingless.

Mr. and Mrs. Gardner Donohue of West Shokan, who have been spending some time with his parents, have returned home.

Mr. and Mrs. Raymond Boice of Hurley, accompanied by her mother, Mrs. Homer Sheldon, of this place, and Mrs. Styles of Kingston took a trip to South Kortright recently.

Mrs. Ephraim Krum has returned home after caring for her daughter-in-law, Mrs. Harry Krum, who has been ill.

Reas Christiansa, who underwent an operation at the Benedictine Hospital and is under the care of Dr. Bush, is much improved.

Ruth Donahue spent last Saturday in Kingston, accompanied by her brother, "Cip".

Dorothy Harringer passed through this place on Friday last and called on her aunt, Mrs. Clarence Eckert.

Mr. and Mrs. Gardner Donohue and sister, Ruth, also Clarence Burgher, went fishing one night last week and reported a good catch.

Howard Trowbridge of The Vly was a caller in this place on Sunday. John Harringer and the representative of The American Agriculturist were around soliciting subscriptions to that paper.

Allen Krum has the position of water boy on the county road.

The farm known as the Jesse Hammond farm, owned by Benjamin Allison of New Jersey, has just been sold to parties in New York.

It has been reported that Emmett Davis, who has been spending some time in Los Angeles with the Dearborne Construction Co., has moved to Harpers, Oregon, and will be located at Harpers until December.

The pupils of Kingston High School have returned home after taking examinations.

Burton Markle, who has been ill for the past week, is somewhat better.

Game law violators are to be chased by Minnesota game wardens along the Mississippi river in motor-boats.

## AMERICANS EAT 35 POUNDS OF SUGAR MORE THAN 1910

Sweets Can Add Energy, If Wisely Used, But Excess Is Dangerous, Says Expert.

New York.—Americans today are consuming more than 115 pounds of sugar per capita each year, or 35 pounds a year more than in 1910. What is that added 35 pounds doing to American health?

The rise of pro-sugar and anti-sugar diet faddists over the country has led Dr. Walter L. Eddy, widely known dietary expert of Columbia University, to offer a comprehensive answer to that question in the Good Housekeeping Magazine.

"Harmful effects of sugar are traceable to excesses in its use, rather than any harm in the sugar itself, which is an essential food," he points out, adding that the excess may be represented as either by the way sugar is used as by the amount consumed. The average healthy adult can consume three to four ounces a day without difficulty or ill effects, it is estimated.

The amount consumed by any individual depends largely, however, on the individual's degree of physical activity, Doctor Eddy points out.

For example, since sugar is a fuel, a boy who spends several hours a day in strenuous outdoor games can consume more than the average amount and find it advantageous, since it adds to his energy. His sister who spends the afternoon curled up with a book will quickly grow fat and slow of mind and body if she tried to eat the same amount of sugar in candy form. The same comparison applies to the office worker, who spends his days at his desk, and the laborer whose body is being exercised through the day.

Candy itself may supply needed energy at times. With athletes, it eaten soon before a contest, it adds fuel to supply bodily power, it is found. But if eaten before meals the result is discomforting because the chemical action of the sugar has retarded the flow of gastric juices.

"Suppose we dump a lot of sugar into the stomach just before dinner," says the Good Housekeeping article. "In the first place it tends to destroy our appetite for less strongly flavored food. If we sit down to dinner and consume our beefsteak, the steak finds no gastric juice to digest it. It has to remain there until the sugar is digested and the acid begins to flow, or it is sent on only partly digested. You see then the wisdom in placing desserts at the end of the meal."

Doctor Eddy disputes the claim that candy causes tooth decay. "Sugar is a good germ food, but it is hard to see how much of it could remain in the crevices of the teeth, since it is readily soluble in saliva and hence would be readily diluted," he points out.

## Out of Fuel? Use Your Head, Skipper Advised

Washington.—The navy bulletin of engineering information said today that one of the navy's ships during recent fleet maneuvers encountered heavy weather, with the result that her fuel ran low. Uncertain of making port, the warcraft sent the following message to the flagship:

"Am running low on fuel; would you advise burning ward room furniture?"

"Don't burn ward room furniture," the answer came back. "Use your head."

## First Upright Piano

In the year 1800 John Isaac Hawkins, an Englishman, living in Philadelphia, Pa., invented the first genuine upright piano and patented it in the United States and England.

Outstanding—by any measure of VALUE

Graham-Paige motor cars have won recognition for fine appearance and dependability. Now we call your attention to their value and low price.

Lift the hood and see the big, 62 horsepower motor of the Model 612—with water circulation to the very bottom of the cylinder walls. The 2½ inch crankshaft with seven large bearings assures smooth power at all engine speeds.

The 612, ready for the road, weighs 3,125 pounds. We have learned through long and practi-

cal experience, that every pound of this greater weight is essential to safety, comfortable riding, and extra long life.

The bodies are roomy and beautifully finished. Upholstery is genuine mohair, with a guarantee of long wear attached to every cushion.

The Model 612 represents our earnest endeavor to give you more than an average dollar's worth of real value for every dollar invested. Before selecting any car in or near its price class, we ask you to examine it and enjoy a demonstration.

## Library Trustees At Woodstock

At a recent meeting of the Woodstock Library Association eight trustees were elected as follows: Orrville H. Peets, Eugene M. Schreiber, Mrs. Eva Schutze, Mrs. A. M. Bullard, Miss Florence Webster, Miss Marion Haines and George A. Neher.

Reports were read by various officers and committees, showing that the library was in an excellent condition, that the circulation of the books doubled the last year, that over 1,000 books were added to the shelves last year including new books on history, travel, science, biography. Donations of books were gratefully acknowledged. Plans were made for the summer schedule with a desire to better serve the public at the art colony.

Officers for the ensuing year were elected as follows:

Alice Wardwell, president; Victor Lasher, vice-president; the Rev. H. L. Todd, treasurer, and Mrs. Alice Strain, acting secretary.

## WEST SHOKAN.

West Shokan, June 20.—The many friends of John Jordan, Jr., of Roxbury are happy to learn that he was graduated this week at Cornell University at Ithaca, with the degree of Bachelor of Science in Agriculture. He is the youngest son of John Jordan, a prosperous local farmer. John, Jr., received his preparatory training at Roxbury High School, being graduated with high honors in June, 1925. The following September he entered Cornell University. Throughout the four-year course, he maintained high percentages in his studies. He is a fine type of young man possessing sterling qualities and of a quiet, unassuming nature. He is interested in aviation and may enter some branch of this profession.

Kenneth Bell of Walden visited the old home town on Sunday. All were glad to see him.

The Ladies' Aid recently had the Baptist Church cleaned and have put down new carpet in the aisles, which is a decided improvement.

Charles H. Weldner and Elwyn Davis attended the last meeting before the summer vacation on Tuesday night, of Kingston Lodge, No. 10, and witnessed the conferring of the third degree of Masonry on a class of candidates.

The newlyweds, Mr. and Mrs.

Ralph McRoberts, were home after a brief visit to Schoenectady, where the groom was arranging business matters. They left on Thursday for Washington, D. C.

Prof. and Mrs. Condon, accompanied by Mrs. Watson Bishop, motored to Stone Ridge on Tuesday evening.

Mr. and Mrs. Shepard Bell were out of town visitors Wednesday evening.

Chase and Elwyn Davis are cutting their clover hay and have several fine loads in the process of carting.

Leuel Howard of Kingston, a former resident of Old West Shokan, was a local caller Wednesday.

Mrs. Emma Smedes of Kingston is visiting her sister, Mrs. William Jones, of Main street.

Mr. and Mrs. Marvin Van Demark entertained callers Wednesday evening.

Samuel Casolina caught a fine string of perch Tuesday evening.

The recent showers were welcome. They were much needed and were a considerable relief after the hot, dry weather.

Ernest Constable reports killing a large and vicious reptile found on his preserves at West Shokan Heights.

William Jones is helping with the haying at the Davis farm.

Charles H. Weldner is performing jury duty in Kingston.

A large local representation attended the law suit at Winchell's Hall on Tuesday evening.

Mr. and Mrs. Peter Eckert of Marlinton were visitors on Wednesday.

## Bell as a Memento

When the ship John Milton was lost off the eastern tip of Long Island seventy-one years ago with her skipper and crew of twenty-three men, the vessel's bell was tossed among the rocks on the shore, resting in such a position that wind and waves made it toll dimly. The bell now is to be placed in the tower of the New Montauk Point Community church. The little building looks out on the spot where the John Milton foundered as she was returning to Boston from a trip to Peru.

## Giant Among Hogs

For two years William Delchmann, Leigh, Neb., has challenged the world to produce a larger hog than his giant Poland-China, but has found no takers. The animal now weighs 1,300 pounds and is still growing. He measures nine feet four inches over his back from snout to tail and stands fifty-four inches high.

## HIGH FALLS

High Falls, June 20.—On Sunday morning, June 23, there will be the usual worship hour in the Reformed Church at 10:30, standard time. C. C. Chilton will deliver the message. Subject: "Excuses." Text: Luke 14:18; "And They All with One Consent Began to Make Excuses."

Mr. and Mrs. LeRoy Krom and sons, James and Raymond, were week-end guests of relatives at East Hartford, Conn.

Mr. and Mrs. Grant Young and mother, Mrs. Kortright, motored to New Paltz and spent the day with Mr. and Mrs. Joseph P. Lefevre.

Mr. and Mrs. Clarence Van Wageningen and sister from Port Richmond, L. I. called at the home of Mr. and Mrs. LeRoy Krom on Monday.

Charles Sherman and daughter, Mrs. O'Connor, entertained friends from the city over the week end.

Mrs. Minnie Tenhagen and Mrs. Catherine Joseph called on Mrs. Kortright on Wednesday evening.

The Grove school, taught by Mrs. Preston Church, closed on Friday last.

Regents' examinations were held at the schoolhouse this week and school closed for the summer vacation.

Mr. and Mrs. James Kelley and daughter, Katherine, are spending the week end at their bungalow here.

The Misses Beatie Gara, Lena Feinberg are home for the summer vacation.

Mr. and Mrs. Thomas Farrell of Kingston, Mr. and Mrs. Daniel O. Leary of Clifton, N. J., Mr. and Mrs. D. Roach and Mr. and Mrs. Henry Beach of Rosendale were callers on Mr. and Mrs. H. Farrell on Sunday.

Mr. and Mrs. Elmer Joseph and daughter Genevieve are spending a week with his mother Mrs. Catherine Joseph.

Mr. C. C. Chilton made a number of pastoral calls on Wednesday afternoon.

Mr. and Mrs. Orrie Smith and daughter Marjorie of East Meridith and Mr. and Mrs. Festus Yeaple spent Sunday with their parents, Mr. and Mrs. Ira Smith, Orrie Smith and daughter remaining for a few days.

Miss Alta Broadhead and mother motored to New Paltz on Sunday and called on Mr. and Mrs. Friend Wilklow.

## LAKE KATRINE GRANGE

## HOLDS LIVELY MEETING

Lake Katrine, June 20.—At the regular meeting of the Grange on Monday evening an extensive report was given by the chairman of the home economics committee, Mrs. Annette Roosa, of what had been accomplished since January and at this time she presented a new table to the Grange for the use of the Graces. It was gratefully accepted by the master, Miss Nance of the Home Bureau was present and led a spirited song service which created quite some merriment. Mr. Willie not being able to smile and sing at the same

time was required to sing alone. Miss Nance gave a brief talk on her work, which inspires everyone with much enthusiasm whenever they have the pleasure of listening. She then gave some very interesting pictures of the Panama Canal. Lemonade and cake were served by the June committee. The plays to be given at the hall on Friday evening of this week under the auspices of this committee were well recommended. The young people of Woodstock are raising funds for a community hall and their proceeds are for this purpose, which deserves the support of the Grange and all in-

terested in community work and in helping them. Help is also given the Grange treasury. The chairman of the committee is Mrs. Frank Brink assisted by Mr. and Mrs. H. Keaton, Mr. and Mrs. Tracey Munson, Mr. and Mrs. Horton Pearson, Mr. and Mrs. Alfred Woolsey, Mr. and Mrs. Auley Roosa, Mr. and Mrs. Harry Enlist, Robert Enlist, Lucas Roosa, Alfred Montavanni, Mrs. Culver TenBroeck, Richard Davis, James Shiels, Mrs. J. Pfeiffer, Mr. and Mrs. Charles Tronson of Kingston, Mr. and Mrs. R. A. Young of Brooklyn and Miss Margaret Pinckney of Mt. Marion.

### NEW PALTZ

New Palitz, June 21.—Following was the commencement day program at the New Palitz Normal June 19, at 10:30 a. m. Processional, "Priests" March from Athalia; invocation, Rev. William C. Humphrey, New Palitz; introduction, Principal Lawrence H. Vandenberg; valedictory, Clara Livingston; chorus, "The Gypsies", Senior and Junior Glee Clubs; address to the graduating class, J. Cayce Morrison, Ph.D., assistant commissioner for elementary education, Albany, N. Y.; orchestra, "Canzonetta"; presentation of diplomas, Daniel Smiley, president of the local board; benediction, Rev. Wilbur F. Brown, New Palitz.

Mr. and Mrs. Schuyler Milham spent Sunday with Mr. and Mrs. DuBois Grimm at Modena. Mrs. Hannah Fellman of Palen-town has been visiting relatives in town. Mr. and Mrs. Raymond Hasbrouck and family spent Sunday with her parents, Mr. and Mrs. William Ferris at Bangall, Dutchess county.

The first of the series of dances under the auspices of the Modena fire department was held Tuesday, June 18, in Hasbrouck Memorial Hall. The hall contains one of the finest dance floors in this section of the county. Music was furnished by Malsenholder's orchestra of Kingston.

Mr. and Mrs. Joseph Linacre motored to Ashokan Sunday to call on Mr. and Mrs. William Zimmerman.

Miss Inez Osterhout of Pough-keepsie on Sunday and Mr. and Mrs. Lucius Cary during the past week.

Normal Class Day program Tuesday afternoon, June 18. Class officers: President, Walter Taylor; vice president, Susan Spasato; secretary, Florence Morrissey; treasurer, Marie Turner. Class Day committees: Entertainment—Louise Dowerman, Eleanor Malloy, Clara Livingston. Scenery—Emma Hultz, Margaret Neary, Lillian Shillinger. Mementoes—Theresa Burns, Anna Aksten, Marion Lapping, Jean Demarest, Cynthia Clarke. Properties—Helen Hogan, Frances Agor, Helen McCarthy, Leslie Oakley, business manager; author of class song, Helen Parrott; author of class history, Florence Morrissey; author of class poem, Mary Polhemus. Playlet—"The Gypsy trail of '29" is reaching its journey's end. The fires of fellowship and beauty are flickering low. Gypsy hearts have the challenge of new adventure. May we cherish the embers of the last camp fire. May these embers blaze the future fires within our camps. Scene, late afternoon in Gypsy camp. Time, June 18, 1929. Characters:

Gypsy Queen—Martha Storey  
Gypsy Fortune Teller—Sadie Cohr  
Gypsy Dancers—Susan Spasato and Eleanor Malloy  
Gypsy Singer—Florence Puckhaber  
Gypsy Violinist—Ida Mead  
Gypsy Men—Helen Mayo, Jean Demarest, Theresa Burns, Edurne Keeler, Marjorie Davis, Ann Bauling, Margaret Kiernan.

Gypsy Women—Frances Bell, Lillian Shillinger, Emma Hultz, Grace Cuthill, Marion Lapping, Ethel Freer, Helen G. McCarthy, Helen M. McCarthy, Virginia Edin-burgh, Aleene Cables, Loretta Austin, Dorothy Mead, Mildred Levine.

Gypsy Children—George Wicks, Jr., Frank Ruiz, Elaine LeFevre, Frank Ververka.

Accompanist—Marguerite Wood  
A large crowd attended. The auditorium was filled.

New Palitz High School commencement class day exercises were held in the school auditorium June 19 at 8 o'clock. Commencement procession-

al invocation, Rev. Edwin D. Miner.  
New Palitz. Introduction, Principal Ray G. Cunningham. Salutatory, Janet Reid. Valedictory, Marjorie Smith. Address, R. H. Matteson of the Normal faculty. Presentation of diplomas, Dr. Lawrence H. Vandenberg. Class day music, two choruses; solo, Miss Lulu Wright, accompanied on piano by Miss Maudred Wright. President's address, Dick Thomson. Class history, Mae Martha Kniffen. Class prophecy, Ruth Sherwood. Class grumbler, Robert Connolly. Class ballad, Muriel Gregory. Class will, Elizabeth Young. Mementoes, Florence Seaward, assisted by Peter J. Flummedo. Class officers were: President, Dick Thomson; vice president, Elizabeth Young; treasurer, Janet Reid; secretary, Robert Connolly. Class colors, rose and silver. Class flower, rose. Class motto, Onward and upward. Graduates: College Preparatory—Robert E. Connolly, Ethel Helen DuBois, Peter J. Flummedo, Elsie Lucille Forshaw, Katherine Gertrude Glancy, Mae Martha Kniffen, Janet Margaret Reid, Florence L. Seaward, Ruth E. Sherwood, Marjorie Smith, Arlene M. Stohr, C. Dick Thomson, Mary Kathryn Wiseman, Elizabeth R. Young. Normal Preparatory—Donald T. Clearwater, Grace Sedwick Cuthill, Muriel Gregory, Velva E. Matthias, Alma C. Pedersen, Wanda Schott.

Those completing their four years' course in high school in three and one-half years were Robert Connolly and Kathryn Gertrude Glancy. Those completing their four years' course in three years were Elsie Louise Forshaw and Janet Margaret Reid. Miss Reid, the youngest member of the graduating class, is but 15 years old.

Mrs. Jerome LeFevre's garden of hardy perennial flowers is a lovely sight to see. Visitors the past week found a profusion of columbine, painted daisies, iris, sweet williams, lupin and poppies. The collection of columbine is the finest and most complete in this section.

The temporary bridge over the Rondout creek between Rosendale and High Falls is completed and open to traffic. A number of New Palitz people passed over this bridge on Sunday. The permanent bridge is under construction but will not be completed for several weeks.

The regular meeting of the Women's Christian Temperance Union was held Wednesday, June 19, at the home of Mrs. Daniel Gerow. Considerable business was transacted, including the election of officers for the coming year. The following were unanimously elected: President, Mrs. Luther Terwilliger; first vice president, Mrs. Morgan K. Coutant; second vice president, Mrs. Ida E. Stevens; secretary, Mrs. Webb Kniffen; treasurer, Mrs. Abel Quick; corresponding secretary, Miss Maggie Eltinge. Mrs. Esther Yost gave a very interesting report of the institute held in Milton, May 21. A life membership certificate was presented to the Union's oldest member, Mrs. Maggie LeFevre Eltinge and one sent to the next oldest, Mrs. Keziah Gerow. Those present were Luther Terwilliger, Mrs. Hiram Reylea, Mrs. Margaret LeFevre Eltinge, Mrs. Thomas Krom, Mrs. Morgan Coutant, Mrs. Ida Stevens, Mrs. E. Betz, Mrs. Abel Quick, Mrs. Webb Kniffen, Mrs. Esther Yost, Mrs. Daniel Gerow and one visitor, Miss Amelia Wygant.

## 10,000 Masons to Supply Flowers at Veterans' Hospital

Seventy-two commanderies of the Knights Templar of New York state will be represented at the 176th annual three-day convocation of the grand commandery which will open in Albany Sunday. More than 10,000 delegates and guests will gather for the sessions, which will be held in the Masonic temple. Headquarters will be in the Ten Tick Hotel.

A feature of the event will be the big parade on Monday afternoon, when thousands of uniformed Sir Knights will march down State street from Eagle street to the Plaza. Sixty bands will be in line.

The convocation will open with services in All Saints' Cathedral, where the Rev. Charles W. Carver of Rochester will preach. There will also be a dance held in the state armory.

### BREVITIES

Self-interest muddles most reasoning.

Marital bonds are not negotiable.

A wise man is continually adding to his wisdom.

Pride sometimes has to go before people fall in love.

Where the offense is, let the great ax fall.—Shakespeare.

Wise is the man who can pick out a good melon or a good wife.

A tombstone record has no influence with the recording angel.

If you can't understand what a poet is writing about, don't ask him.

Halos are an optical illusion in the eyes of those who bestow them.

If a man is crazy and doesn't know it it's because he is a bachelor.

A successful physician is one who succeeds in concealing his ignorance.

A lodge uniform can be devised so as to make a man feel very important.

Those who have had taste in art can find out easily enough what good taste is.

There are 40,000,000 automobiles in this country except on Sunday. Then they are countless.

It requires the severest regimen to grow old gracefully, which one is always advised to do.

When people lived in log cabins, they were more romantic. Romance always goes with discomfort.

A plump lady to laugh merrily is as necessary at a dinner party as a smart man to make wisecracks.

Less and less, will folks get on their knees to anything; and is that the development of "personality"?

### Fireflies' Light

Fireflies produce a bright, soft, intermittent light, without sensible heat, from an organ in the lower part of the abdomen. This organ appears to be a specialized part of the fat body and is supplied with nerves and abundant trachea. The light is supposed by some to be caused by oxidation of a substance created by the cells.

On Thursday Miss Waite, representing the National Red Cross for this region, was in town and conferred with some members of the executive committee relative to the regional conference of the Red Cross to be held at Tanager College in October.

Miss Waite also told of the activity of the Hudson Chapter of the Red Cross in providing flowers for the Veterans' Hospital at Castle Point, near Beacon, where there are some 425 veterans and also a Red Cross recreational lot with two Red Cross workers. Since this kindly act has been continued, it has been found that the morale of patients as well as the workers has "looked up" appreciably as always happens when there is a feeling of a place that is being kindly thought of rather than just an institution, to quote from Miss Waite.

However, it was found that, even drawing from the flower gardens nearby and buying flowers from nearby florists who were very generous, the chapter did not have funds enough to keep all wards supplied once a week, and doubtless the Hudson Valley Chapter will gladly help out, as has the Ulster County Chapter, with a gift of \$20 which will provide flowers for two weeks, for all but the entrance ward which has not yet been arranged for. This seems a pity as upon its cheerfulness much might depend, and if any Kingstonians would like to help out in this special way, the address of the parties to whom to send flowers will be available in a few days, or money for the cause may be sent, so specified, to the local Red Cross treasurer, E. E. Oughtree, at the Supreme court chambers, court house, Kingston.

MANY FIND RELIEF FROM HEAT AT DEWITT LAKE.

The warm days have brought many people from Kingston and the surrounding section to DeWitt Lake where they have enjoyed the bathing and boating. Many of the boarding houses in the vicinity of DeWitt Lake will be well patronized this year due to the bathing development and dancing.

DeWitt Lake has been left in its natural state. The lake offers the finest swimming obtainable as a large stream of water flows through a mountain tunnel for more than three-quarters of a mile from Whiteport lake, which is owned by Hall & Burnett. After passing through the mountains, the stream flows through a winding valley and runs over Whiteport Falls into DeWitt Lake. This constant flow of water recirculates the entire lake and then passes over DeWitt Falls, which has been greatly admired.

It is the intention of the DeWitt Lake Amusement Company to bar concessions such as carousels, Ferris wheels, etc. No charge is made for parking or camping. A large radio has been placed in the dance casino

and megaphones have been placed at different points of the lake so that the people on the lake can also enjoy the music.

## Program at Camp Pruemaker

The date for the opening of the Y. M. C. A. camp for boys is near at hand and the camp staff under the efficient direction of C. H. Hall has arrangements well under way and will be ready for the opening on June 26. The tentative program of each day has been made out and will undoubtedly change slightly in order to meet various conditions.

A day's schedule is as follows:

**Morning.**  
7:00—Reveille.  
7:05—Flag raising and setting-up exercises.  
7:15—Dip.  
7:45—Breakfast.  
8:15—Chapel.  
8:45—Camp duties.  
9:15—Camp tournaments, instruction groups, individual contests.  
11:00—Swimming instruction, beginners.  
11:30—Regular swim.  
11:45—Life savers swim.  
12:00 M.—Text inspection.  
**P. M.**  
12:30—Dinner.  
1:15—Siesta.  
2:15—Boating, tournaments, hikes, etc.  
3:00—Swimming.  
5:00—Supper.

7:00—Campus games, fishing, boating.

8:45—Evening program.

9:15—Tape, every one to bed.

From 8:15 to 11 each morning the boys will participate in their bungalow tournaments. Those not in major tournaments activity will make a choice of the following activities: the individual tournaments, first aid instruction, boating, fishing, etc.

From 2:15 to 3 in the afternoon, the boys choose their activities.

From 7 to 8 each evening there will be held campus games in which each camper will be urged to take part.

In order to create a "family" atmosphere the directors have built several bungalows which will house about eight fellows and a leader.

These bungalow groups will compete for various honors in several activities. Some of these are as follows: Baseball, swimming, archery, horse-shoes, boat racing, barrel tilting, pole boxing, etc.

Some other activities will be: Dart baseball, German bowling, tether ball, barrel tilting, pole boxing.

It will be necessary for a boy to compete in these contests in order to earn his camp emblem.

**Death Left to Fate**

Many seafaring men never learn to swim because they believe that when they are born fate has already decided when and how they shall die.

"We've been using Senex long enough to know that it would be economy to buy it if cost a third more than ordinary fly sprays. But the best part of it is, it actually costs less. Instead of the customary 50c half pint size, a whole pint of Senex sells for 65c.—Advertisement.

**Lutheran Doctrine**

Martin Luther's "Little Catechism" is the creedal foundation of the doctrines of the Lutheran church, and was written by Martin Luther in 1529. It begins with the ten commandments, and deals with the usual doctrines of creation, salvation and faith in Jesus Christ.

## OUTING FOR UNCLE SAM'S EMPLOYEES

Uncle Sam is preparing an outing for his employees this summer, through the co-operation of the Alaska railroad, which is operated by the government.

The outing embraces a specially combined tour from the Capital to Fairbanks, Alaska, leaving Washington August 25 and returning 22 days later. The expenses of all kinds will be grouped under one lump sum, which will be between \$500 and \$600.

The entire round trip will total 11,000 miles of travel and will include both rail and steamship journeys. If sufficient people arrange to take the trip, special trains will be run from Washington to Seattle, and steamers from Seattle to Alaska will be run exclusively for the excursionists.

While Alaska is the principal goal of the trip, efforts will be made to show as much of the western part of the United States as possible. One day, for instance, will be devoted to sightseeing trips around Salt Lake City, and Columbia river gorge. In Washington, will be on the itinerary. The northern trip from Seattle will be through the famous scenic inside passage.

**Lutheran Doctrine**

Martin Luther's "Little Catechism" is the creedal foundation of the doctrines of the Lutheran church, and was written by Martin Luther in 1529. It begins with the ten commandments, and deals with the usual doctrines of creation, salvation and faith in Jesus Christ.

**QUAKER STATE-MENTS**

THEE gives thy motor a boon when thee buys Quaker State Motor Oil, for in every gallon there is an extra quart! Special refining has removed from every gallon a quart or more of material that has little or no value in thy motor. So, instead of this quart of waste, thee gets four full quarts of lubricant in every gallon!

Look for the green-and-white sign

35c PER QUART

## BRILLIANTS

Wealth adds to a fool's folly.  
At cut rates—the hawk writes.  
Real giving is sharing small things.  
Even people who borrow trouble have it to lend.  
Many a scorned girl has a cloudy disposition.  
A sacrifice you are glad to make is seldom a sacrifice.  
A poem in the mind saves stamps if it is kept there.  
Many habits that are not good for men do not kill them.  
Charity that expects a return on the investment isn't charity.  
Go slow and you won't have to sit down and rest when you get there.  
People who think they are good looking support the photographers.  
One has enough bad luck to make any bad luck superstition come true.  
Charity often begins at home, but reform is usually practiced at a neighbor's.

It's a case of true love if she quits a good job to wash dishes and say "Gimmie."

Chemistry shows you that everything in nature is composed of something else.

A man doesn't enjoy getting laughed at by a crowd unless he is getting paid for it.

Knowing your friend to be in distress is what brings your affection for him to fever heat.

A man may strongly advocate free speech for others without necessarily caring to listen to it.

Resented Uncalled-For Slam at Dead Brother

Ralph W. Smith of the bureau of standards is conducting for the government a nation-wide investigation of taximeters, and he said in Washington the other day:

"This investigation doesn't mean that taxicabs, like taxidermists, skin you, and the men who take offense at us fail to understand. In fact, they're like Smith."

"A man came back to the home town after thirty years in New York and, of course, he inquired affectionately about this old friend and that."

"And Bill Smith?" he said. "How is dear old Bill Smith getting along?"

"Bill is dead," said John Smith, a brother.

"What? Bill dead?" sighed the visitor. "Ah, me, peace to his ashes."

"How dare you?" said John Smith hotly. "Bill was as good a chap as ever breathed."

Going Far Back  
In the study of cosmography—in observing the nebulae of extra-galactic space—we are witnessing scenes and events which occurred in past ages. When we look out into the depths of space we are gazing back into history. The nearest star we see today as it was four and a half years ago; the nearest nebulae, the irregular Magellanic clouds, as they were 100,000 years ago; the frontiers of the known universe, as they were 200 million years ago back in the carboniferous age of the geologists.—Edwin Hubble, in Harper's Magazine.

Half City at Auction  
Half of Braggs, Okla., is to be sold at auction because five women could not agree on the division of an estate. Forty town lots were left by J. J. Patrick when he died two years ago. His will provided that his estate be divided equally among five daughters, after a farm had been bequeathed to his only son. The daughters disagreed on an "equal division." In that case, Patrick's will provided, his estate should be sold at auction. More than half the town's business buildings are involved.

No Bother at All  
"At what time would you like the porter to call you?"  
"There is no need. I can always wake up without calling."  
"Then would you mind calling the porter—he sleeps half the morning."  
—Pete Mele.

But They Are  
She—Isn't the moon lovely tonight? Do you know it always fills me with hunger for something.  
He (hastily)—Let's dance.—Tit-Bits.

Remember Lost Cause  
General Lee's tomb at Lexington, Va., was visited by 2,647 persons from thirty-seven states and eight foreign countries in March.

Nothing to Wear  
Tim—Aren't you going to invite your roommate to your wedding?  
Jim—No, he's only got one dress-suit.—Life.

Sympathy  
"What? Is this you, Jones? I was told you were dead."  
"No, it is my brother who is dead."  
"Oh, I am sorry to hear that."

# SLEEP WITHOUT DRUGS SAYS EMINENT SPECIALIST

Former Bottle Creek Sanitarium Physician States Amazing Flaxolyn Discovery Relieves Constipation Condition Naturally and Brings Sound, Restful Sleep by Perfecting Digestion—Whelan Drug Stores Feature Flaxolyn.

Thousands of people here who formerly suffered nights of sleeplessness and days of agonizing stomach distress due to constipation, now feel fit, eat with keen appetite and sleep serenely since taking Nature's own formula, Dr. Luntz's Herbal Flaxolyn.

According to the statement issued by Dr. A. W. Luntz, formerly physician, at the Bottle Creek Sanitarium, "Flaxolyn relieves in a natural way that dreaded condition called constipation. In many cases where auto-intoxication prevented sleep, the use of Flaxolyn has been the means of so clearing the colon that natural sleep is now the usual thing and life has taken on a different meaning for these people."

Dr. Geo. Starr White, prominent Los Angeles health writer, and specialist, aroused kidney and stomach sufferers by taking an open stand in praise of Flaxolyn when he said last week: "I know of no remedy that can equal Herbal Flaxolyn as a corrective for chronic conditions of the bladder and kidneys—no more natural formula for 'self poisoning' due to constipation."

Dr. Benedict Lust, (M. D., N. D.), president of the American Naturopathic Association, says: "Flaxolyn is a natural food, laxative and priceless in all digestive ills." That is the unique feature of Flaxolyn—it is a remarkable

Tonic-Laxative, Not a "DRUG"  
Hundreds of other doctors and health sanitarians all over the world have used Flaxolyn in the treatment of such symptoms as dizziness, liver disorders, indigestion, sleepless nights, kidney and bladder troubles and have already written in praise of Flaxolyn.

Don't wait. Start taking Flaxolyn today. Does not gripe because it is a natural food. You will feel the tonic change at once. You will enjoy relaxed vigor, a new grip on life.

Free Diet and Health Suggestions may also be obtained from Dr. Luntz personally. His address appears on the package.

Whelan Drug Store

Phone No. 1559.

FLAXOLYN "OPEN FORMULA"  
Not a secret—Nothing to Hide Says Dr. M. M. Luntz, (M. D., N. D.)

1. Stomach Flaxolyn—Relaxes congestion; acts as antacid.
2. Vegetable Character—Aids digestion, sweetens the stomach, overcomes acid and gas, purifies undigested, fermenting food.
3. Jangleton Boreton—Cleans, purifies, stimulates kidneys and bladder.
4. African Ginger—Keeps—Quickens flow of vital digestive juices.
5. Dandelion Root—Purifies the liver and blood.
6. Cardamon Seed—Act on the stomach lining; aromatic tonic.
7. Chinese Rhubarb—Invigorates the stomach and the liver.
8. Spanish Licorice Root—Removes mucus that may be clogging and poisoning the digestive organs.
9. Calver Root—Stimulate natural bile-flow and so purify the liver.
10. Cassia Root—Create a healthy, normal appetite.
11. Brighton Valerian Root—Tone the nerves and induce the restful sleep of health.
12. California Bark—Cleanses the colon and removes foreign matter from the intestines.

Special Note: Do not confuse Flaxolyn with any medicine. It is Entirely Different. Composed only of the pure derivatives of Nature. Prepared in healthful powder form. Your instinct tells you Flaxolyn is good for you.

## Greene Tendered Birthday Dinner

George W. Greene, chairman of the Albany county Republican organization, was feted Thursday in celebration of his birthday at a dinner in the Little Theatre of the Y. W. C. A. by Mrs. J. Archibald Clark of the state committee from the second assembly district. Mr. Greene is a former resident of this city.

The dinner was given for the ward president of the second assembly district, who recently conducted a bazaar under the leadership of Mrs. Clark. John H. Rea of the state committee from the second assembly district was guest of honor. Mrs. Greene and Mrs. Miriam Albee Schindler, vice chairmen of the county organizations, were also honored guests.

## KINGSTON DELEGATES TO KIWANIS INTERNATIONAL

The Rev. O. E. Brandt, pastor of the Lutheran Church of the Redeemer, and Benjamin Sunkind, secretary of the Merchants' Credit Association, are delegates of the local Kiwanis Club to the thirteenth annual convention of Kiwanis International, which opens at Milwaukee, Wis., Sunday. It is estimated that 5,000 Kiwanians of the United States and Canada will attend the convention.

## FEAR DISASTROUS ERA OF TORNADES

Weather Bureau Officials See Trouble Ahead.

Washington.—The tornado record for the first quarter of 1929 as shown by information gathered by the United States weather bureau here promises another unusual year for these disastrous storms.

Last year more tornadoes occurred in the United States than during any previous year for which the government meteorologists have gathered data. The record for 1928 nearly doubled the usual number of 90 to 100 a year. But the loss of life due to tornadoes in 1928 was exceedingly small and the property loss was far below that of the worst years.

In the first two months of this year ten tornadoes caused 32 deaths compared with only four tornadoes and no deaths in January and February of 1928. March kept up the unfavorable condition, with some half dozen whirlers and a dozen or so of deaths. And the Arkansas tornado toll gives April the beginnings of a bad showing.

As May and June are the months that usually show the largest damage from tornadoes, meteorologists feel that more storms and suffering must be expected.

The Southern states experience their tornado storms most frequently in late winter and early spring. Then the whirler season invades the Northern states. Contrary to popular opinion there is no "tornado belt." Statistics show that over half of the extremely destructive tornadoes have occurred east of the Mississippi.

The tornado is born of currents of air above the ground that differ in direction and come in contact. A condition of warm, moist air near the ground overlaid with cold air sets up violent heat transfer and overturning of the atmosphere. A great whirl or vortex results, releasing the pent-up energy of the air. Not always does the funnel-shaped cloud

reach the ground, but when it does the low pressure of its center explodes houses, and the wind about the vortex prostrates all that it encounters.

Usually a tornado moves east or northward at the rate of 25 to 50 miles per hour. If you see one coming at you, run toward the northwest, as due to the small path, a few feet may mean the difference between death and safety.

## Chief of Volga Pirates Gets Sentence of Death

Moscow.—The reign of the Volga river's most famous band of pirates, murderers, and bandits is at an end. Pasha, the gypsy, and four of his henchmen have been sentenced to die. The court's sentence, which also jailed 21 others, including Pasha's beautiful wife, Voronina, ended a dramatic five-day confession in court by the leader himself, Pasha Kuznetsov. A recommendation for a reprieve was made for Kuznetsov because he turned state's evidence. He admitted 11 murders and 35 robberies.

## Farmer Digs Post Hole; Gold Nets Him \$60,000

Toronto, Ont.—W. P. Rhodes, Beatty township farmer, has just finished digging a \$60,000 posthole. He expects that the same hole will yield him double that amount. Rhodes, pioneering on the edge of the northern clay belt, decided to fence in more of his property. He had to use dynamite to dig his postholes. The first blast uncovered free gold. Rhodes sold his find to the Schumacher mining interests for \$60,000 cash and a large interest in the property.

## Coins for Ornaments

New York.—Fifty thousand dollars in \$10 gold pieces of a design no longer used at the mint has been sent to Semarang, Java. The coins are in demand for use as ornaments.

## Italy's Fat Woman Dead

Mantua, Italy.—The fattest woman in Italy, Giovanna Ossena, who weighed more than 450 pounds, has just died here.

Radio experts have brought up in connection with jazz an interesting question as to whether something is popular merely because it is prevalent.

They asked the office skeptic whether he considered that he was related in any way to the Pithecanthropoid ape, and he said it was possible, as an in-law.

The cow tree of Guatemala gives milk which is remarkably like ordinary cow's milk. Not only that, you don't have to sneak up on it at 5 a. m. to milk it.

"A Russian artist is to go to Africa to paint beautiful Bedouin girls who never bathe." The best practice will call for a good sandpapering before applying the paint.

A questionnaire in Rochester asks whether a zither is a musical instrument or a disease. It is something you scratch, though that hardly answers the question.

## Doing a Balcony Scene

By DUFORD JENNE

(Copyright.)

NELSON HALL swung briskly up the driveway through the attractive grounds of the estate. The errand he was on was largely business, but he told himself he would not mind lingering a bit in such a pleasant spot. He went up the steps of the broad porch and touched the door bell. He heard steps, and expected when the door opened, to face a butler or a maid. Instead, he was a bit staggered when he saw, framed in the doorway, a golden-haired girl of decided beauty. He caught himself, "Er—in Mr. Kilburn at home?" he asked politely enough.

"No—or wait—perhaps he is. I'll see. Won't you come in?" her voice suggested, but in the voice was an odd note that disturbed his even modulations.

"Wonder what is up?" Nelson asked himself. "But I shall certainly linger if I can—with her preferably."

He followed her slight graceful figure through the hall and up the broad stairs, then into a room that evidently was used as a library. She ushered him in, closed the door behind them, invited him to a chair, then went to the other door, and turned:

"I'll see if I can find father," she said swiftly. "If you will please wait."

She closed the door, and then Hall heard a sound that made him sit sharply up. She was locking it!

"Well, what in thunder is up?" he asked of himself. "Of all weird stunts."

He waited a few minutes, then rose and tried the door through which he came. She had been the last through it and had fixed the lock so that it fastened as she entered. He tried the other door.

"Locked sure as shooting!" he muttered. "She has me cooped up for fair. Wonder who she thinks I am—some murderer or thug? I hate to think I look like one—especially in her estimation!"

He tried tactics of delay—read a bit, strolled around the room, but nothing happened. He found on a desk in the room her picture. He studied it—a picture of a girl in a tender, happy mood.

He calmly put the photograph in his pocket. He went to the french windows and discovered that they opened on a small balcony. He stepped out and looked down—two stories—too far for comfort, but there were the heavy ivy vines.

"By Jove, I believe I could make it! I don't like this idea 'of being cooped up here—waiting for somebody to unlock a room as if I had been a small, bad boy," he took counsel with himself.

"I'll not take a chance of ripping that brand new coat," he continued. He slipped it off and threw it down. "Now for a Romeo act the other way around," he concluded.

Hardly had he extended a leg for the descent, when a quick, frightened cry made him turn. He looked around, then drew back. She had come from the house and was below him—a picture of blue and gold beneath him.

He sat down on the edge of the balcony. "Escape I do—unless I am informed as to the reason for my imprisonment!" he announced.

She evidently felt unhappy over the situation, but she said bravely: "Father had been accused of misappropriating funds, but he knows a subordinate did it. If he is arrested, it means the papers will get it, and his reputation and firm will be hurt. This afternoon he is ending the matter—and he isn't going to be arrested just to please his enemies!" she added a bit triumphantly.

He looked at her. "Are you his daughter, Beth Kilburn?" he demanded. She nodded.

"I came here to see your father—he and my old man were college chums. I'm the son and heir of Stanley Marks—and proud of it!"

Her voice was low. "You aren't?" "I am!"

"You'll find a letter to your father in that coat," he replied pleasantly—then to himself: "Gosh, I forgot about that photo!"

It was the photograph she saw first. She gazed with startled eyes.

"Why did you take this?" she asked hesitatingly.

"I can tell you better, Beth, later on," he answered gently.

When she looked up again, her quivering head was submissive.

"Please, forgive me. I really have done a foolish, crazy thing, but I expect father at any moment—and I did not want to see him or have him under arrest. He will jolly me for years if he finds this out. You won't tell him, will you?" she almost pleaded.

He grinned back at her in frank comradeship. "I'll keep it to myself. Now, please come up and unbar the gates, Miss Jailer—but don't take that picture from that coat first!" he commanded.

"You are going to be hard to manage!" she answered as she slipped from sight.

He swung his legs. "There's no doubt of that—I am," he said by way of congratulating himself.

## Making Politicos

A friendly child is instinctively polite and needs only to see the forms of good manners to adopt them on his own initiative.—Farm and Fireside.

England Not Losing Ground  
The statement is often made that England is slowly vanishing—falling into the sea. Exactly the opposite is the case, for whatever happened in the past England is at present gaining more than she loses.

## SEAPLANE PLUNGES IN ST. LAWRENCE, IS KILLED

Montreal, June 21 (AP).—The waters of the St. Lawrence river were being searched today for the body of C. S. Caldwell, chief pilot for Canadian Vickers, Ltd.

Caldwell, Captain J. C. Jervis, former aide de camp to the governor

General of Canada, and Dr. William D. Morris were killed yesterday when a seaplane, piloted by Caldwell, struck high tension wires and plunged into the river.

The bodies of Captain Jervis and Dr. Morris were recovered.

Witnesses said the plane was flying down river at low altitude when it reached a point between Point St. Charles and Nun's Island. There was

## COACHING WOULD-BE AUTOMOBILE DRIVER

The Berlin motor licensing bureau is demanding that all would-be drivers of automobiles or motor cycles under the ages of eighteen pass the most stringent tests before applying licenses. In the Berlin technical high school apparatus has been installed on which young aspirants are coached before they take tests. A young lady is shown above going through her lesson.

WOULD PRESERVE  
HIGHWAY BEAUTYNevada Will Not Permit  
Erection of Billboard,  
Sign or Notice.

While state, county and local laws governing advertising signs on the highways are designed, in most states, to afford protection to motorists, only in Nevada do they also attempt to preserve the scenic beauty of the roads. This was disclosed by a survey of such laws recently by the bureau of public roads of the United States Department of Agriculture.

No Permit for Signs.

In Nevada no permit is granted for the erection of any billboard, sign or other form of notice on any location which may measurably destroy the natural beauty of the scenery or obscure a view of the road ahead or of curves and grades or intersection highways or railroads. While the majority of states restrict the placing of signs within certain distances of curves, grades or intersections of highways or railroads, Nevada is the only state of the 48 to restrict the placing of signs where they will spoil the beauty of the scenery along the highways.

"It is unfair to the motoring public that the very industries which depend upon the highway for their whole business should be the worst offenders in erecting and maintaining thousands of glaring, disfiguring signs along our streets and roadways," Thomas H. MacDonald, chief of the bureau of public roads, recently declared.

"The most offensive of these shriek at the traveler who is in hopeful search of the beauty of the country-side and a restful, uplifting change from city streets. They shriek at him to buy gas and oil, automobiles, grease and tires. The tourist is most frequently enticed to stop at second-rate hotels," he continued.

It is to the credit of many of the producers of the best products that their wares are not advertised in this way, he pointed out, and to certain oil companies and others who have withdrawn from this practice.

Other Offenders.

"The billboard advertisers are not the only offenders against the highways," Mr. MacDonald stated. "Nine out of every ten of the roadside filling stations and lunch stands merit the condemnation rather than the patronage of the passerby."

"These conditions will not be cured by seceding. The larger companies will abandon these invasions of the rights of the public, some through an awakened conscience, others through necessity, because this fight for clean roadways is just starting."

"A number of the state highway departments have made splendid progress, and some notable legislation has been made effective. One of the best of such laws is that of Connecticut, which licenses all roadside filling stations, requires the location and arrangement to be approved, and keeps this business off the right of way."

Oil Filter Must Have  
Its Regular Servicing

Three years ago before adoption of the oil filter, car manufacturers recommended that oil in the crankcase be changed every 500 miles.

Today these manufacturers' oil changing recommendations range from 1,000 to 3,000 miles. The average recommendation is every 2,400 miles. This longer use of the oil has been made possible because of adoption of the oil filter, which filters the oil, removing from it foreign matter that otherwise would cause wear to the engine's vital parts.

The manufacturers' oil changing recommendations are based on the use of an oil filter, and it is further recommended that the filtering unit be renewed every 10,000 miles in order to insure its working at highest efficiency.

The filter, it is explained, besides removing the abrasives from the oil before they can damage cylinders, pistons and other internal parts of the engine, also effects a saving in oil of about \$29 per car per year.

Beautiful Custom

The Daughters of 1812 have a beautiful custom of paying tribute to members deceased during the year at the national conventions. As a short eulogy is given, a page places a flower in a star for each name on the list.

Unheard, Unseen

In the old days it was said that the dead should be seen and not heard. Today the maxim has been applied to the old. And who old people aim to be seen as little as possible, in addition.—E. W. Howe's Monthly.

\*\*\*\*\*  
Source of Annoying  
Noises Is in Tops

Roadster and phaeton tops that are put up in a hurry when the first drops of a summer rain begin to fall may prove to be a source of annoying rattling. If the attachment in front is to the windshield frame, it frequently happens that the nuts are not tightened all the way down. The bows also may not be firmly mowed. In some of the more inexpensive cars, the bows are held in place by a cotter pin. Unless this pin is put in properly, it will mean an annoying squeak that sometimes is hard to locate. A washer usually will take up all play at this point.

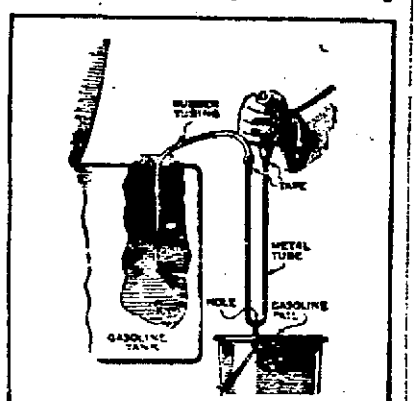

\*\*\*\*\*

Car Advice of Others  
Often Is Very Faulty

It is bad business to be guided by other motorists' experiences. Cars are very different in their construction and detail, and the little things are the ones that make the big difference.

Recently a motorist had a new timing chain installed on his car and felt that he was through with chain troubles for some time to come. It developed that he got this idea from a friend whose car is equipped with an automatic take-up device which compensates for the stretching of the chain.

After driving a thousand miles with the new chain, he was surprised to find that the spark timing became retarded as a result of the chain wearing down a little, stretching and then jumping a tooth. Where automatic take-up is not provided an initial adjustment is necessary after the first 700 miles of the new chain's service.

Self-Starting Siphon  
Very Handy Accessory

Bent Tube and Bulb a Handy Siphon.

Instead of sucking rubber hose to start gasoline siphoning out of a tank, construct the neat siphon shown in the illustration. Bend a piece of brass or copper tubing into a U shape. To one end attach a rubber bulb like photographers use. To the other attach a piece of hose. Then drill a hole in the tube at the bend. Insert the rubber tube in the tank and squeeze the bulb. Press your finger tightly over the hole and release the bulb. Remove your finger and gasoline will flow from the hole in the pipe. The hole must be below the level of the gasoline in the tank.—Popular Science Monthly.

## AUTOMOBILE HINTS

Unhappily the path of the just is not a one-way thoroughfare.

At the beginning of 1929, Italy had approximately 172,000 motor vehicles in operation.

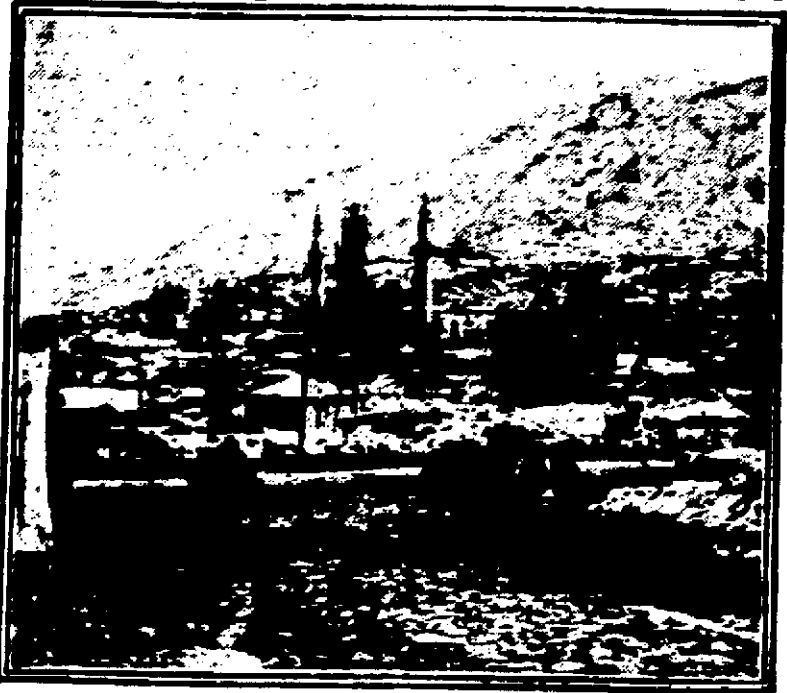

As to America's sense of humor did you ever notice the spare tires some carry on their cars?

"The part of the automobile that causes more trouble than any other is the nut that holds the steering wheel."

Women are now fairly good car drivers. They have, so to speak, started from the back seat and worked up.

We do not see why they call them ambulance-chasers in New York when some of them get to the hospital ahead of the ambulance.

## Sea of Marmora

View of Brusa, Asiatic Turkey.

(Prepared by the National Geographic Society, Washington, D. C.)

TO SAIL on one of the cargo boats from Constantinople that feels its way, according to the available freight, from port to port along the shores of the sea of Marmora, is to obtain a charming mixture of contrasting ages.

Perhaps you will touch first at the Princes Islands, which can be visited by motor boat. Of these, Halki especially breathes of an untouched simplicity and charm which is the more appreciated when one's marine glasses reveal across the way the cloudy city where live Constantinople's teeming thousands.

Instead of the monster summer hotels which the proximity of an American metropolis would bring to such a spot, one finds nothing of Constantinople among these pine-darkened, sea-commanding heights except hill-topping monasteries, where medieval emperors, blinded or in chains, passed their exile.

Sheep bells tinkle among the olive orchards. Down the road, with his laden donkey, comes the seller of charcoal or drinking water. In the tiny square sit silent, non-mending fishermen. And that is all, except the monastery bell clanging its angelus under the glow of a sea sunset. Constantinople might be oceans away.

The exile ground of emperors and dogs—that spells the melancholy history of these lovely islands. Constantinople's age-old dog pest developed under the Koran's benign injunction of kindness to dumb creatures—a stumbling block which the young Turks of 1908 sought to circumvent by offering the entire canine population to a Christian glove manufacturer. Upon his declining this dog concession they shipped the round-up of pariahs to barren Odis, one of the Princes group, where the outcasts incessantly devoured one another.

From the islands it is only a step across the Marmora to its Asiatic coast, and a forty mile run up the charming gulf of Ismid. A dirty hillside town, passively enchanting under the springtime glow of fruit blossoms, turns out to be all that remains of Nicomedia, the one proud city of Diodorian (modern Izmit).

But Rome's bridges have outlasted her empire, and a few years ago the inhabitants of Greek villages which had been burned by Kemalists irregulars came thronging across the stone archways built of old for the passage of Roman legions into Asia Minor.

Relics of German Ambition.

Descending the gulf, one passes at Derinde a relic of the latest bid for empire in the shape of a vast warehouse containing a million and a half square feet of floor space, constructed by German engineers for the storage of grain arriving over the Baghdad railway.

Still farther along, at Hereke, is a palace which was built almost overnight by Sultan Abdul Hamid for the purpose of entertaining his friend William when, in 1910, the German emperor passed en route for his tour in Syria and Palestine. Here, in this charming, sea-bordered villa, sultan and emperor dined and chattered for three hours, while the special train waited; then they parted, and this creation for one Arabian night, unattended before or since, passed into the realm of yesterdays.

A few hours' run along the Asiatic coast brings one's ship within sight of the somnolent little port of Mudania, where the victory-flushed Kemalists decided not to swoop across the allied-held straits to Constantinople.

Olives are taken aboard and you find that you will have time, if you choose, to visit nearby Brusa.

Sneaking upward through the hills lie narrow-gauge rails, and a wheezy toot from a toy train warns that presently will not delay its departure beyond half an hour or so on your account. You catch it in just twenty minutes, and are politely thanked by the engineer for not having kept him waiting longer.

Gradually widening vistas, where mile on mile of olive and mulberry groves clothe the sea-skirting hills, reveal the countryside's two staples. The olive, the cocoon, the seaboard—for centuries the Anatolian Greek identified himself with this trio. The trio remains; but the Greek, because of the post-war shift of populations, has departed.

Rising ahead the Asian Olympus re-

calls by its very name that Greek colonists were here, christening landmarks in honor of sacred spots at home, many centuries before the Turks began their big westward push across Asia Minor.

Along the flanks of overshadowing Olympus, Brusa scatters itself like some great patch of white wild flowers, almost fairylike in its aerial grace, with mosque domes resembling rich blossoms and minarets the slender stalks, as they rise against the sullen sky, as if they were the slender stalks of some great flower. So many mosques are there that one is tempted to imagine that, flowerlike, they seated themselves at random whenever spring winds blew. "A walk for each day in the year, a mosque each walk," runs the proverb of Brusa.

Silk Industry of Brusa.

Today the sultan and sultana of Brusa are a pair of white, brown-spotted worms. Indeed, they produce a royal fabric, whereby, to Near Eastern peoples, the name Brusa connotes silk just as Kimberly connotes diamonds. Moreover, a Brusan treats them as royalty to the extent of turning his house over to them in the feeding season; for whenever his attic floor becomes covered with mulberry leaves, each with its hungry worm, he carpets the rooms downstairs with more leaves and sleeps out in the garden.

During the war, when the silk factories were destroyed, the workers dispersed, and the very mulberry trees cut down for fuel, Brusa's ancient industry was, to all appearances, dead; but in 1919 returning refugees found, to their amazement, that its germ had survived. A mere handful of old women, who had remained in the town, had saved a few mulberry trees and had guarded, season after season, the cycle of cocoon, moth, hatched-out eggs, and feeding worm. In time of war they had prepared for peace.

The silkworm has a voracious appetite for a creature 3½ inches long, and during its brief life of thirty days it consumes six times its own weight in mulberry leaves.

After this sumptuous repast, and having shed its skin four times, it spins around itself a cocoon made of a double fiber of silk, each fiber being not uncommonly 400 yards long. A fortnight later it softens the inclosing silk with its saliva, then pushes forth as a moth.

After pairing, the female moth lays 400 eggs or more; then, her usefulness over, she dies. The cultivator, having chosen the best eggs for breeding purposes, incubates them for thirty days, at a temperature well below blood heat, when a fresh crop of worms is hatched.

The cocoons chosen for the silk factory are steamed, so as to kill the inclosed life. Then they are steeped in basins of hot water; the gelatinous matter is thereby softened, and machines begin to wind off the silk filament. This is so fine as to be invisible to the casual glance, and the attached cocoon, bobbing about in the hot water like an animated peanut, seems almost alive.

Scenes of War for Ages.

Leaving Mudania, your boat is soon dipping seaward through the Dardanelles, where fortress-bearing heights gradually slope, on the Asiatic side, into Troy's plain, and on the European into the sparsely clad spit of Gallipoli.

Surely, in the New world, magnificent residences would crown such sea-commanding heights. Instead, only a few mean villages dot the shores of that 43-mile passage, along which two continents face each other almost within shouting distance.

Those sixteen hundred yards which separate Sestos from Abydos have been dedicated to war for over two thousand years. There the ancient Persians crossed by boat bridges to invade Europe. There the Greeks under Alexander crossed to invade Asia; and in the middle of the Fifteenth century the Orient's turn came again when the Ottoman Turks passed over at the same spot, planting their banner in Europe for the first time.

It is the ferry to conquest—or disaster. Legends of a seven years' siege beckon from the abutting Trojan plain, while just opposite, off Gallipoli, the Aegean ran blood-red with the terrible allied losses of 1915. Today some acres of wooded crosses alone mark the desolate scene of that modern Iliad.

One Man Injured  
In Auto Crash

This morning one of the delivery trucks of the Thomson Laundry, driven by Arthur Markle of 197 Greenhill avenue, and the Hudson car driven by Stephen Staples of 77 Fair street collided almost head-on at Wall and Franklin streets. Mr. Markle was cut on the head and taken to the Beneficent Hospital where it was necessary to take two sutures to close the wound. Both cars were damaged. The collision was reported to the police.

REDEEMER VOCATIONAL  
GUIDANCE COMMITTEE

With a view of being of greater assistance to the young people of the church a vocational guidance committee has been appointed at Redeemer Lutheran Church.

This committee will assist young men and women to find their life work by arranging for interviews with persons successful in lines of activity in which the young people have some interest. It is expected that through such interviews the young people will be able to decide whether or not they would be happy in the particular vocation about which they are inquiring.

Among the vocations about which young people may inquire and secure interviews are the following: Ministry, diaconate, medicine, dentistry, teaching, law, nursing, architecture, civil engineer, electrical engineer, mechanical engineer, plumbing, painting, carpenter, musician, machinist, drafting, accountancy, insurance, baker, banking, real estate, horticulture, farming, stenography, undertaking, auto mechanic, boat building, railroad, pharmacy, stone cutting, butcher, grocer, and various others.

This committee will not act as an employment agency but simply to help young people find themselves. The committee consists of the pastor, A. Berelson, G. Ramming, J. Herrmann.

FAVORS SEARCH OF LIQUOR  
BOATS FOR FIREARMS.

Windsor, Ont., June 21 (AP).—Search of liquor boats by Canadian officials for firearms is advocated by Crown Attorney James S. Allan as a means of combating liquor smuggling.

Allan advanced his suggestion in opposing release on bail of Alfred J. Woods, wealthy Amherstburg dock owner, arrested on a charge of receiving a camera stolen by rum runners from a newspaper photographer they kidnapped Tuesday.

Allan said that liquor runners are

51st PIONEERS TO  
PLAN FOR REUNION

Members of the 51st Pioneer Infantry will hold a meeting in the armory on Wednesday night, June 27, at that time reports of committee will be given and plans for the annual reunion to be held here on Sunday, August 18, will be discussed. It is planned to make the affair a big event. It is expected that this one will be the largest of any yet held. The meeting will start promptly at 7:30 and those interested are invited to attend.

## JUST HUMANS

By Gene Carr

"WHY IS HE CHASIN' YA FORT?"  
"CHASIN' ME EYE, HE'S FOLLOWIN' ME!"

## SOMETHING TO THINK ABOUT

By F. A. WALKER

## INFLUENCE OF COLOR

YOU may declare to your intimates that you are weary of the monotony of life; that for some inexplicable reason you fail to find pleasure in diversions which only a few months ago gave infinite joy, and that altogether your existence is becoming a dismal phantom from which you would gladly run away.

This sort of ennui is common, but not alarming. No one seems to escape its weariness and dejection, especially in the season of falling leaves, when the skies are flecked with gray clouds, the hills are bare and the sword is devoid of brightness.

When the eye is entertained by glorious hues and the streams reflect purple and gold, the soul is apt to forget that it is imprisoned in clay. So it sings silent songs from dawn to starlight, unmindful of captivity, in its delightful environment.

When the dull, leaden days creep over the steel-blue hilltops, and the cold winds whip the naked branches of the trees, there is in all of us a natural inclination to become dejected and sad-hearted.

The reason for this mental state is that we are unconsciously influenced by color. The duns, grays and bistres for some psychological cause are depressing, while, on the other hand, the reds, greens and yellows are cheering, calling us away to happy realms and delightful visions.

We all know how we are stirred to our inmost being by a gorgeous sunset, a garden of beautiful blooming flowers, or an orchard when the verdure is new and the trees are laden with waving pink and white blossoms, and the atmosphere is tinged with subtle hues of violet.

What is there in our winter home life that gives us more acceptable cheer than the kindly blaze on the open hearth?

Who does not enjoy sitting before the orange flames to give himself or herself up to pleasant reflections while the shadows play hide and seek upon the walls and the snowflakes melt the crystal panel?

It is not so much the genial warmth that we relish as the elusive colors. If you doubt this, blindfold your eyes and note how quickly your pleasure steals away and leaves you groping in a land of gloom!

(© by McClure Newspaper Syndicate.)

## SUPERSTITIOUS SUE

ONE HAS HEARD THAT—  
In Japan a favorite mascot worn by the young people consists of three outer shaped boys, which they believe will protect the owners leading to love, health and wealth.

## Mother's Cook Book

Laugh and the world laughs with you; weep and you weep alone.  
For the sad old earth must borrow its mirth,  
But has trouble enough of its own.

Sing, and the hills will answer:  
Sigh, it is lost on the air,  
The echoes bound to a joyful sound,  
But shrink from voicing care.

—E. W. Wilcox.

## SUMMER DESSERTS

THERE is no pie which is any more popular than the fresh cherry pie. Cherries are a favorite fruit for puddings as well.

## Cherry Pudding

Roll a rich biscuit dough very thin, spread with canned, drained cherries, adding more sugar if needed. Roll up like a jelly roll, press the edges close together and fold in the ends. Arrange in a buttered baking dish, pour around it the juice from the canned fruit, using two cupsful, adding water if there is not enough juice. Sweeten with half cupful of sugar and bake in a brisk oven for 45 minutes, basting three times during the baking. Serve with cream if there is not enough sauce.

## Fresh Cherry Pudding

Mix and sift two cupsful of flour with four teaspoonsful of baking powder and one teaspoonful of salt. Rub in one tablespoonful of butter, and when well mixed add three-fourths cupsful of milk. Take two quarts of cherries, pit them and reserve the juice; add two cupsful of sugar and turn into a baking dish. Cover with the dough mixture, patting it down in shape. Steam 50 minutes. Serve in the baking dish. Thicken the juice with arrow root, add a little butter and sugar if needed and serve with the pudding.

## Christina's Pudding

Use the recipe for a plain cake or cottage pudding and serve with:

## Strawberry Sauce

Cream one-half cupful of butter, add gradually one and one-half cupsful of confectioner's sugar and slowly, two cupsful of strawberry pulp and juice, stirring constantly. When well blended add the stiffly beaten white of one egg.

## Gooseberry Pie

Cover two cupsful of gooseberries with water and heat to the boiling point. Drain, cool, and add one cupful of sugar, two tablespoonfuls of flour, a pinch of salt and a tablespoonful of butter. Turn into a pastry-lined plate, wet the rim and cover with a top crust. Bake one-half hour, the first eight minutes in a very hot oven. Serve hot.

## Peach Egg Dessert

Cut rounds of sponge or any good pound cake, place on top of each round one-half of an apricot cut-side down, pour over some of the canned sirup and place around the fruit a row of piped whipped cream lightly sweetened and flavored with almond.

## Sweet Croquettes

Take one cupful of stale cake crumbs, one-fourth of a cupful of blanched almonds or shredded coconut, the grated rind of one-half a lemon, one-half tablespoonful of lemon juice, one-half cupful of orange juice, one egg. Mix the first four ingredients in a saucepan and add the orange juice to moisten, and let stand ten minutes. Heat to the boiling point; remove from the fire; add egg yolk and cool. Shape as croquettes, dip in egg white beaten slightly, roll in sifted bread crumbs and fry in deep fat. Sprinkle with powdered sugar and serve with a chocolate sauce.

## Spanish Aviator Off for New York

Cartagena, Spain, June 21 (AP).—Major Ramon Franco, celebrated Spanish aviator who flew across the South Atlantic in 1926, took off here today at 4:50 p. m. (10:50 a. m. E. S. T.) for the Azores Islands on the first lap of a flight to New York.

Major Franco took off from Alcazar Airfield, near Cartagena, with three companions. The fliers are scheduled to make their first stop at the Azores, which they should reach by 5:30 a. m. Saturday, Madrid time (2:30 a. m. E. S. T.).

Major Franco will spend the day at the Azores. He plans to take off for New York at 6 p. m. Saturday (midnight E. S. T.).

The flight will be direct to New York if weather conditions are favorable. If not, a stop probably will be made at Halifax, N. S.

## People Are Talking Faster

According to the observation of a well-known stenographic expert, with the passage of 20 years there is an increase in speech at the rate of ten words per minute. People read more, see more, do more and are better educated than they were in the past and it has resulted in quicker thinking and talking.

Radio may jack the speed up even more. When radio was first used in reporting people began to say that it wouldn't be long until the short-hand reporter would be out of business. However, it has proved exactly otherwise. In the last Presidential campaign many newspapers used the radio in getting speeches.

## Farm Clubs Grow

The 4-H club movement, which has grown with leaps and bounds since its inception a few years ago, took another great step forward during 1928, according to the tabulation of county agents' reports, made at the Department of Agriculture. An increase of 47,000 members over 1927 indicated in the total figure of 666,000. The estimated total of those who will complete their work during the coming year is also about 47,000 over last year's figure.

## The Forward March

"Even perfection can be perfected," Commander Richard E. Byrd was praising, at a New York banquet, the advance made by aviation.

"There is room for improvement everywhere," Commander Byrd went on. "This was well understood by a Norfolk girl."

"Give me," said a Richmond girl, "the man who can drive with one hand."

"I, for my part," said a Norfolk girl, "prefer the man who asks me to drive."

## American Foods for Siam

In far off Siam the natives turn their thoughts toward the United States when the question of food arises, and in particular their attention is centered upon the Pacific coast, where come two of their most highly prized delicacies, sardines and raisins. Last year more than a \$1,000,000 worth of fish products were imported from the United States.

## Was His First?

At the University of Maryland is housed an awkward steam-propelled automobile. It is the work of Dr. W. E. Aiken, a former professor at the university, who is said by many to have been the pioneer in such vehicles in America.

## Snook Admits Killing Pupil

Teacher's Quarrel With Girl Followed Her Protest Over His Plan to Spend Week End With His Family, Who She Threatened to Kill.

Columbus, Ohio, June 21 (AP).—The confession of Dr. James H. Snook, 45, dismissed Ohio State University professor, that he killed 25-year-old Theora Hix, his pupil-paramour, was ready for the county grand jury today, just one week from the day the girl was beaten and slashed to death. He killed her, he said, because she threatened the life of his wife and child.

The confession, announced at midnight by County Prosecutor John J. Chester, Jr., was held for the grand jury with Chester's prediction that a first degree murder indictment would be returned before evening.

Bringing to an end 25 hours of grueling examination, Snook lost the iron nerve that had carried him through six days of investigation and, sobbing like a child, told the prosecutor and police heads he was ready to "tell everything."

The confession that followed declared he had struck the girl on the head with a hammer during a violent quarrel in his automobile parked at a lonely rifle range near here on the night of June 13, and that, realizing her skull was fractured, he took out his pen knife and slit her throat "to relieve her suffering."

Quarrel Followed Girl's Protest. The quarrel, he said, followed the girl's protests against his plan to leave the city over the week end with his family and her threat to kill his wife and two-year-old daughter if he went. As the altercation became more bitter, the confession said, Miss Hix reached for her handbag in which at times she carried a small pistol that Dr. Snook had given her. Then followed the struggle in which Dr. Snook said he snatched up the hammer in the car and struck her on the head.

The confession was made early yesterday afternoon, but Prosecutor Chester, following an agreement he said he made with Snook, did not make his official announcement until midnight. This, he explained, was to permit Snook to arrange in his mind the facts for an interview at midnight with press representatives.

The statement sets out the details of the alleged three-year friendship between the girl and the man she first met as her classroom instructor.

PLANS TO FLY TO NEW YORK FOR HIS FIGHT.

Albany, N. Y., June 21 (AP).—Paolino Uzcudun plans to fly to New York for his fight with Max Schmeling. It was learned here today.

All six seats on the Coastal Airways plane which leaves here at 3 p. m. E. D. T., have been reserved for June 26, for the basque and his training camp staff.

DR. L. E. SANFORD TO TAKE A VACATION SOON

Dr. Lester E. Sanford, city health officer, will be away from the city from June 23 to June 30. While on his vacation he will attend the state health conference the latter part of the month at Saratoga Springs.

Joke on Thieves

Hamilton, Ont.—After carrying a safe two miles from the store of William Bridgwood, here, thieves found the safe door opened with a mere twist of the handle and that it was empty.

## Fraternal Order Criticises Bishop

Knights of American Protestantism Resents Activities of Methodist Bishop in "Attempting to Control Destinies of Federal Government."

Norfolk, Va., June 21 (AP).—James Cannon, Jr., minister and crusader of the Methodist Episcopal Church, South, is vigorously criticized for "using his office as a bishop of the Methodist Church for the defeat of any man for office, whether qualified or not, purely on religious grounds, in a resolution adopted by the Knights of American Protestantism."

The resolution was announced yesterday by the national board of directors of the organization. Voicing resentment at the activities of Bishop Cannon, the resolution further criticizes him "for the injection of his own church into politics, although we do appreciate the loyalty and sincerity and good will he is trying to do, but we do object to his attempting to control the destinies of the federal government."

The Knights of American Protestantism describes itself as a fraternal order having 429 local chapters in 37 different states and professing to be "bonded together to advance the true American spirit in defense of the Stars and Stripes and in upholding law and order."

Two People Are Bitten by Dogs

Two more people, a man and a girl, were bitten by dogs in the city on Thursday. Sam Werner of 7 Ulster street reported to the police Thursday evening that he had been bitten by a dog owned by a family named Stoski of Fourth avenue.

Walter Raskowski of 407 Delaware avenue reported today that his daughter, Evelyn, had been bitten by a dog owned by Joseph Gardeski of Gross street.

Health Officer Sanford was notified by the police of the reports.

CERKAN RESIGNS FROM VAN WAGENEN STORE.

Frank Cerkan, the popular window dresser and advertising man of the L. B. Van Wagenen Company store on Wall street, has resigned his position with that concern to take effect immediately. Mr. Cerkan expects to leave his position on Saturday to take up his line of work in a larger field.

Mr. Cerkan became associated with the Rose Stores a number of years ago and has been associated with the Van Wagenen store for the past two years. He has made many friends since coming to Kingston and will be missed by the customers of the store, for his pleasing personality won the friendship of all with whom he had dealings.

MAJOR PIERCE CELEBRATES HIS 85th BIRTHDAY

Major James Pierce of 44 Sterling street on Thursday, June 20, celebrated his eighty-fifth birthday. Major Pierce, who was a drum major of the Old Twentieth Regiment during the Civil War, is in good health and is able to take his daily walks. For many years he was known about the country as an expert trap drummer, and also as a skilled violinist. He is a retired railroad engineer and was presented with a gold badge when he retired.

CY PERKINS SAYS....  
"ALL'S HOTSY TOTSY"

YES, Sir, Dave tells me as everything has been humming rite along this week and you still have one big day tomorrow left of Dave's VACATION SALE....

## Society Notes

**Kelder-Wagner.**  
Ellenville, June 21.—Lester Kelder and Miss Lucy Wagner were married Saturday at St. Mary's rectory by the Rev. Thomas J. Dunne. After touring northern New York they will reside here.  
**Germer-Eaton.**  
Miss Cora Eaton, well-known in the vicinity of Ellenville, was married to Karl Germer, a native of Germany, at Jersey City on June 15. After a honeymoon in Europe the GERMERS will reside in New York city.  
**Maines-Schillingman.**  
Charles F. Maines, son of Mr. and Mrs. Philip Maines of 39 West Union street, and Miss Helen Schillingman of 195 Harrison avenue, Bronx, N. Y., were married on Tuesday, June 11, by the Rev. Paul Sanders of the Trinity Lutheran Church, Bronx.  
**Winkelmann-Dunne.**  
Fred Winkelmann of Stone Ridge, and Miss Lina Dunne of 270 Lucas avenue, Kingston, were married in Immanuel Evangelical Lutheran Church by the pastor, the Rev. E. L. Witte, on Wednesday evening. They were attended by Mr. and Mrs. LeRoy Lyke. Upon their return from a wedding trip the couple will be at home in Stone Ridge.  
**Neal-Barrington.**  
Dr. B. F. Neal, a physician in Ellenville since 1888, and Miss Grace Barrington, graduate nurse, also of Ellenville, were married on Wednesday, June 12, at Elizabeth W. Johnson county, by the Rev. H. W. Johnson. They are now touring in northern New York and Canada. Dr. Neal is 76 and his bride 43, according to

## Financial and Commercial

New York, June 21 (P).—A brisk demand for United States Steel common and American Copper, coupled with the buoyancy of a few high-priced industrial, featured the movement of the upward price movement in today's stock market. Trading showed a marked expansion in breadth and volume which was evidenced by an increase of increased participation.

Money advanced at 7 per cent for the supply at that figure was held. There was no change in the money and commercial papers. Despite the recent easing of the time money rates, Federal reserve officials indicated there was no change in their credit policy.

Quotations given by Parker, McEloy & Co., members N. Y. Stock Exchange, 120 Broadway, New York city, branch office, Stuyvesant Hotel, 2:30 P. M.

## Schedule For Second Half Of Industrial League

Hercules, winner of the first round of the Industrial Baseball League and the K. & M. Schillings combination will start the second round on Monday, June 24, at the Athletic Field. Following is the schedule for the remainder of the season:

June.

Monday, 21—Hercules vs. K. & M. Schillings.  
Tuesday, 22—P. O. Apollo vs. W. S. Van Slyke.  
Wednesday, 23—Columbia-Talcott vs. Manhattan-Dwyer.  
Thursday, 24—Gasco vs. Cornell-Artistics.  
Friday, 25—K. & M. Schillings vs. P. O. Apollo.

July.

Monday, 1—Hercules vs. Manhattan-Dwyer.  
Tuesday, 2—Columbia-Talcott vs. Gasco.  
Wednesday, 3—W. S. Van Slyke vs. Cornell-Artistics.  
Thursday, 4—Hercules vs. P. O. Apollo.  
Friday, 5—Columbia-Talcott vs. W. S. Van Slyke.  
Saturday, 6—Manhattan-Dwyer vs. Gasco.

Wednesday, 16—Hercules vs. Cornell-Artistics.  
Thursday, 17—K. & M. Schillings vs. W. S. Van Slyke.  
Friday, 18—Manhattan-Dwyer vs. P. O. Apollo.

Monday, 15—Columbia-Talcott vs. Cornell-Artistics.  
Tuesday, 16—Hercules vs. Gasco.  
Wednesday, 17—Manhattan-Dwyer vs. W. S. Van Slyke.

Thursday, 18—K. & M. Schillings vs. Columbia-Talcott.  
Friday, 19—P. O. Apollo vs. Cornell-Artistics.

Monday, 22—Hercules vs. W. S. Van Slyke.  
Tuesday, 23—K. & M. Schillings vs. Gasco.

Wednesday, 24—Manhattan-Dwyer vs. Cornell-Artistics.  
Thursday, 25—Columbia-Talcott vs. P. O. Apollo.

Friday, 26—W. S. Van Slyke vs. Gasco.  
Monday, 29—K. & M. Schillings vs. Cornell-Artistics.

Tuesday, 30—Hercules vs. Columbia-Talcott.  
Wednesday, 31—P. O. Apollo vs. Gasco.

August.

Thursday, 1—K. & M. Schillings vs. Manhattan-Dwyer.

## Major League Club Standings

### National League

	W.	L.	P.C.
Chicago	34	20	.620
Pittsburgh	34	21	.618

New York	31	24	.564
Philadelphia	23	30	.434
Boston	22	32	.407
Brooklyn	22	33	.400
Cincinnati	20	36	.357

### American League

	W.	L.	P.C.
Philadelphia	40	13	.755
New York	33	21	.611
St. Louis	33	20	.622
Detroit	33	29	.532
Cleveland	26	29	.473
Washington	20	32	.387
Chicago	22	38	.367
Boston	19	39	.328

### International League

	W.	L.	P.C.
Rochester	38	24	.612
Reading	31	25	.554
Baltimore	33	28	.541
Toronto	32	31	.508
Montreal	31	32	.492
Newark	29	31	.483
Buffalo	27	34	.443
Jersey City	21	37	.392

### YESTERDAY'S RESULTS.

National League.  
New York 11; Philadelphia, 6.  
Boston, 4; Brooklyn, 2.  
Chicago, 7; St. Louis, 6.  
Only games scheduled.

### American League

Boston, 6; Washington, 4.  
Detroit, 8; Cleveland, 4.  
Chicago, 5; St. Louis, 3.  
Only games scheduled.

### International League

Toronto, 11; Jersey City, 4.  
Newark, 8; Rochester, 6.  
Newark, 6; Rochester, 5.  
Baltimore, 7; Buffalo, 5.  
Montreal, 1; Reading, 0. (six innings, rain).

### GAMES SCHEDULED TODAY.

National League.  
New York at Philadelphia, cloudy, 3:30 p. m. eastern daylight.  
Brooklyn at Boston, cloudy, 3:15 p. m. eastern daylight.  
Pittsburgh at Chicago, clear, 3 p. m. central daylight.  
Only games today.

### American League

Philadelphia at New York, 2 games, clear, 1:30 and 3:30 p. m. eastern daylight.  
Boston at Washington, partly cloudy, 2:30 p. m. eastern standard.  
Only games today.

### International League

Toronto at Jersey City, clear, 3:30 p. m. eastern daylight.  
Rochester at Newark, clear, 3 p. m. eastern daylight.  
Buffalo at Baltimore, threatening, 3:30 p. m. eastern standard.  
Montreal at Reading, cloudy, 2 games, 1:30 and 3:30 p. m. eastern standard.

### Coal By-Products

Some of the by-products of coal include coke, gas, light, medium and heavy oil, tar, pitch, ammonia and the nitrogen contents of ammonia known as ammonium sulphate. The crude gas can be used as the starting point for a number of other products and the crude oils and tars as the starting point for a long list of dyes, medicines, explosives and other chemicals.

### Harmful to Lenses

Many people have the habit of laying down their glasses with the lenses touching the table or whatever hard surface there may be. This produces fine scratches on the glass which interfere with proper vision.

## Jinx Trails First Base Stars

SO HANDSOME WILLIAM TERRY, the agile first baseman of McGraw's Giants, had to be the initial goat of the 1929 baseball season. What a fate must dog the footsteps of those young men who earn their leaf and beans by guarding the portals to McGraw's table.

Handsome Willie forgot to touch first base. His most celebrated colleague in position, Mr. Fred Merkle of another decade, forgot to touch second base. Both over-sights lost a ball game, but Willie never will become the national sage that Merkle's did. A ball game lost in the first week in May isn't like a ball game lost in the first week in October.

Terry had just belted an emotional triple to deep center field in a game with the Cardinals. He rounded the bases at express train speed. Bill may not be as graceful as an antelope in full flight, but he's dogged near as efficient. He ran into Little Andy High at third base and when they picked Andy up his trousers were wrong-side out, he'd been that scrambled.

That halted Bill's flight at third. Sunny Jim Bottomley, Cardinal first baseman, had rushed to the far corner and was yelling for the ball. Jimmy Wilson, Cardinal catcher, passed it to him. Jim touched Terry and then hot-footed it over to first base and stopped on the bag, still with the ball in his hand.

Umpire George Magerkurth, as hard-boiled as a county fair hot dog, waved Terry out. When the atmosphere had cleared and the dust had settled down and representatives of Gene Tunney had gathered up all the adjectives and placed them in a canvas bag for later scrutiny, Magerkurth explained.

In rounding first, Terry had failed to touch the bag. Bottomley had noted the oversight and called for the ball. Magerkurth, having seen the act, could do nothing more than call Big William out. A moment later Capt. Travis Jackson delivered a single that would have scored Terry and given the Giants a lead in the ball game.

Back in 1905, when the Giants raged down to a never-to-be-forgotten finish with the Cubs, Merkle pulled his play which made it possible for Terry to pull his Merkle.

Bill Terry.

## Accident to Yankee Is

### Elias Funk's Only Hope

For three years Elias Funk, known to his ball associates as "Liz," has been waiting for something to happen to one of the regular or reserve Yankee outfielders.

This was his third year in the Yankee training camp. Since the Ruth-Musel-Combs triumvirate is still going strong, Funk has had to concentrate on beating out Cedric Durst or Ben Paschal for one of the reserve posts.

Elias batted .304 for St. Paul in the American association last year. He throws and bats left handed, is twenty-three years old, 5 feet 8½ inches tall, weighs 165 pounds and makes his home in Oklahoma City.

But the caddies of the municipal golf course in Joplin, Mo., have demonstrated that the national game is not passed up by the boys who earn spending money on the golf courses. They have formed a baseball team, known as the Schifferdecker Caddies, and have issued a challenge to the other boys' teams of the Joplin territory.

Coach Hanley Has Idea of Numbering Athletes

Coach Dick Hanley's idea of numbering his athletes both on the front of their jerseys as well as the back in all of Northwestern's grid games next fall is expected to prove a popular innovation.

In a recent game between two picked teams the system was given a trial and proved decidedly successful. The spectators were able to recognize the players much easier than under the former method when the numbers were placed only on the back. It was also found that substitutes could be identified quicker and more accurately.

Record for Freshman

Albert J. "Albie" Booth, Jr., who is the latest freshman at Yale to compile a record in sports as yet unmatched. Since his entrance to Yale last fall, Booth has captained the football and basketball teams and recently was elected captain of the freshman baseball team. Booth is a graduate of the New Haven high school.

Red Sox at Fleischmanns.

The Red Sox will play at Fleischmanns Sunday afternoon, with Ken Mable, first string pitcher doing the hurling. Straley will be ready for relief work. All members of the Red Sox are requested to be at the central postoffice at 11:45 a. m. Sunday to leave by bus for Fleischmanns.

Game at Block Park.

The Roundout A. C. and Manhattan-Dwyer team will meet this evening at 6:15 at Block Park. Corrigan and Flanagan will form the Roundout battery. Straley and Sturber will make up the mainstring of the Manhattan-Dwyer combination.

## Boxing Card at Armory Expected To Draw Crowd

Indications point to a real good show and a crowd at the armory to-night. All the boys are ready to fight at top speed, giving the patrons their money's worth for the scheduled 32-rounds of action.

The Nick Zinna-Eddie Reilly 10-round feature has created interest among local fans. Zinna is on edge to go. He is anxious to score a victory over Reilly. He delights in meeting a man of Reilly's calibre and is set to give his followers a real never exhibition tonight.

Reilly, according to Jimmy Ambrose, matchmaker of the New York National Guard, expects to take Zinna into camp. He is in tip-top shape, say his handlers, so the soldier lightweight champion of the Hudson valley will have to fight hard to keep his reputation intact.

The semi-final of six rounds between Joe Carpio, local scrapper, and Murray Fuchs, heralded as a real clever man of the metropolis, having given Dominick Petrone a hard go about a year and a half ago, promises to be a thriller. Carpio is in A-1 shape and ready to put plenty of steam behind his blows tonight.

Four four-rounders scheduled are as follows:

Roy Van Buren, local, vs. Herman Hill, New York.

Kid Buckman, Kingston, vs. Charles McCain, New York.

Phil Schafer, Saugerties, vs. Kid McCarthy, New York.

Jerry Sampere, Poughkeepsie, vs. Charlie Wimmis, West Point.

## Regatta Crews Tapering Off

Poughkeepsie, N. Y., June 21 (P).—With one brief week-end left for final preparations for the Intercollegiate Rowing Association regatta Monday, the tapering off process got under way today in the camps of the nine crews. Yesterday provided the last day of hard work and time trials were held by most of the coaches.

The usual amount of secrecy enveloped the final tests of the ability of the eights. Few of the coaches would announce the times made although Al Ulbrickson admitted that his Washington varsity had gone over the course late Wednesday evening in the fast time of 20 minutes. Bill Haines gave out a time of 15 minutes for his M. I. T. eight over the three-mile distance against a stiff breeze.

The last minute changes in boat-lugs and the fears that some of the star oarsmen would be out of the race are rapidly being smoothed out. Four California men, who were out of their boats for a while because of heat and sickness, were back again yesterday but Ky Ebright would not allow them to do any hard work. He expects to have them ready for the race after a five-day rest. Jim Wray of Cornell returned his captain, Abbott, to his seat in the red varsity after replacing him with Vannerman for a short time.

Pennsylvania, an outsider in the pre-race choices, did most of yesterday's shifting in a final endeavor to find a combination which will upset the dope. The hot weather affected Barnhart, Penn's No. 2, and Weiss replaced him. Deveau also took the place of Sherons at No. 7.

A pair of troublesome teeth caused some shifts in the junior varsity boatings. Bob Schoettler, No. 2 in the Washington Jayvee boat, may be out of the race because of an infected molar. McMullen pulled his oar yesterday. Jack Eddy, stroke of the Navy Juniors, also took yesterday off for a tooth extraction but will be back on the job by Monday.

Baltimore has obtained William H. Clarkson, righthanded pitcher, from the Boston Braves on option. He has been a holdout on the big league club.

University of California's baseball nine will open a six weeks' schedule in Hawaii by meeting the all-Chinese team of Honolulu in that city July 4.

Gordon Kessler, football and baseball star at Maryland, was elected president of his class as a freshman, and has been re-elected each year that followed.

Bruno Burns, star pitcher at Boston university, has only one arm. He is a former all-around Charleston high athlete and star of the Terriers' freshman baseball team of 1927.

Otis Cashion, Shreveport, Texas league, center fielder, tied what is said to be the world's outfield put-out record recently. He made 12 in the Shreveport-San Antonio game.

The Pirates may not have to worry about the shortstop position next year for they have first call on Rabbit Warfield of Indianapolis, who is batting the ball at a terrific clip this season.

Every nickel of profit at a benefit fight show in Cleveland is to go to a fund for the expansion of amateur baseball. No fight fan, fighter, manager, politician or writer received a free ticket.

Ty Cobb is taking baseball vacation, the first in a quarter of a century. You may reach him this summer in a chateau just outside Paris. He's rented it for the season, and is on his way.

Mobile has uncovered a future big leaguer in Elmer Kimmip, slugger outfielder purchased from the Mississippi Valley league. Manager Rudy Holsvett is grooming the youngster for future service with the Boston Red Sox.

FIGHTS LAST NIGHT

(By The Associated Press)

Darton, Ohio—Cecil Payne, Louisville, knocked out Billy O'Brien, Chicago, (2).

Milwaukee—King Tut outpointed Pinky Kaufman, Hartford, Conn., (10); Cuskie LeRor, Fargo, N. D., and Joe Azarelia, Milwaukee, drew, (6).

## Pan-Ams Set to Battle Colonials on Sunday

### Ackerman Drives Winning Horse

Thursday afternoon at the track races at Sturbridge, Mass., Townsend Ackerman of this city driving won the three-year-old pace for a \$1,000 purse with "Better Win."

Driver Ackerman is a former trainer with the James O. Winston and John J. Cuneo stables. In his story of the races Walter Moore, the New York Herald-Tribune, staff writer of sports, says of the race:

"The three-year-old pace bought out a field of seven star colts with Better Win, 2:07, favorite at \$50 to \$20 over the field. Better Win was making his first start under the ownership of Mrs. Charles F. Adams and was driven by Townsend Ackerman, now training at Topsfield, Mass. The Belwin colt was not long in getting to the front, making a runaway race of each heat. His miles, 2:07½ and 2:07½, were not near his limit. Second place was just as securely won by Sampson Hall, a clever colt by Napoleon Direct, owned by R. C. McClenathan, of Erie, Pa. Third place went to Betsy Prigg, member of the Blue Ridge Stable and one of the highest priced yearling pacers ever sold in a New York sale."

Generals Booking Games.

The Generals of Lake Katrine are now booking games with ball clubs of this vicinity. Games may be arranged by phoning Manager G. T. Marsden, 93-F-2.

On the Fourth of July, the best attraction of the season will be at the Fair Grounds. Wetmore is busy making the arrangements and will announce his choice next week.

The regular Pan-Am lineup of some boys, will charge Freddie Wetmore's imported Colonials at the Kingston Fair Grounds Sunday afternoon. Because of this feature it is expected that the largest crowd of the season will visit the park Sunday.

There has been much talk among local fans as to the respective ability of these clubs and Sunday's contest should throw some light on the discussion.

Pan-Am handlers have stated that they believe Kingston fans delight in seeing talent of this city perform and will not put in any "ringers" against the Colonials, formerly the highly heralded D. H. Generals and a highly calibre outfit. The rumor that the oilmen will have new talent in the pitcher's box is unfounded according to the manager, who likely will start Carpenter on the mound and have Celuch and Black for reserves.

The Pan-Ams expect a hard fight, but will enter the contest with all intentions of taking the bacon, even though some think the oilmen are stepping out of their class. Fight until the last man has gone out is the motto of the team in every game, so should the Colonials take their measure it will not be because the local boys lacked the proper spirit.

Bill Makofski, a regular hurler for the upstarters, is getting his salary wing in shape and expects to toss a brand of ball that will give his teammates little to do. However, the Pan-Ams have some good hitters who may fool Makofski and make the Colonials earn their money chasing the pill.

On the Fourth of July, the best attraction of the season will be at the Fair Grounds. Wetmore is busy making the arrangements and will announce his choice next week.

KINGSTON GLASS CO. Glass of all kinds installed. Copper store front construction, auto glass. 36 Prospect St. Phone 3618.

FAMOUS LEGIONNAIRES and the PELGIN Legionnaire REAR ADMIRAL HUGH RODMAN

Says Admiral Rodman:—

"My wristwatch was indispensable and was in constant use on the bridge and elsewhere throughout the war. While attached to the naval observatory in Washington, where observations are taken and time signals broadcasted, I was interested in testing watches for some of the leading makers, and found the ELGIN to stand in the forefront for accuracy and reliability. I have no doubt but that the Legionnaire is up to the ELGIN standard."

(Signed) HUGH RODMAN, U.S. NAVY

Let us show you our array of ELGIN Legionnaires—\$19 to \$28.50.

Cordially yours, Safford & Scudder

Golden Rule Jewelers, 210 Wall St., Kingston, N.Y. "The House of Lucky Engagement and Wedding Rings."

OUR DAILY PATTERN.

6535

A Gay Little Frock For a Tiny Miss. 6535. Crepe de chine edged with lace and finished with veiling at the bottom of yoke and skirt portions was used for this pretty model. White muslin is also pretty and cotton prints are very desirable for this type. Blue or pink voile is suggested with pipings in white. The skirt portions are cut with short sleeve extensions, and joined to yoke portions, which also form sleeve portions.

The pattern for this attractive design is cut in 5 sizes: 1, 2, 3, 4 and 5 years. To make the dress for a 2 year size will require 1 1/2 yard of 39 inch material. To trim the dress as illustrated will require 3 1/2 yards of lace, and 1 1/2 yard of hemstitching-brail or veiling.

A pattern of this illustration mailed to any address on receipt of 15c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Notice.

Send 15c in coin or stamps to The Freeman for our up-to-date Spring and Summer 1929 Book of Fashions showing color plates, and containing 500 designs of ladies', misses' and children's patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 30 of the various simple stitches), all valuable bits to the home dressmaker.

Hawaii Possible State.

There is no constitutional law which would prohibit the island of Hawaii being given the status of a state. It is already annexed and is a territory of the United States, having the usual territorial degree of self-government, with representation by a delegate in the United States congress.

BUSINESS NOTICES

VAN ETTEN & HOGAN. Local and Long Distance Moving. Padded Vans. Phone 561 or 467.

If it's lawn mowers see Terpening, 54 St. James street, new and second hand. Phone 1711-W.

Sanding, floor laying and jobbing. Apply John Brown, 152 Smith avenue. Phone 1193-W.

B. LOUGHRAN CO.

Plumbing, heating and all kinds of metal work, our reputation behind every piece of work. 270 Fair street. Phone 96. Estimates cheerfully furnished.

Upholstering, Reupholstering all kinds of Furniture. 72 W. Union St., Phone 777-M.

HOW SCHEMERS FLEECED PUBLIC

Oil Tricks, Stopped by New Policy, Described by Interior Department.

Washington.—"What," asks the Department of Interior in a recent press memorandum, "is behind the 34,000 permits, involving millions of acres of land, issued to individuals and companies to prospect for oil and gas on the public domain since the general leasing law was passed by congress nine years ago? Why have these permits ripened into only fifty-six leases? Why have 15,000 permittees, whose rights have already been canceled for noncompliance with the law, allowed their claims to lapse? And how will the new federal oil conservation policy curb the speculation in the potential oil lands of the country?"

"These," the bulletin continues, "are some of the questions that have caused the Department of the Interior to issue a statement describing the speculation in the public domain and the methods by which promoters have been able to turn the lure of oil to their own profit and to the disadvantage of the public in exploiting the national resources."

"Many letters are on file at the department which reveal the methods by which individuals have been imposed upon in the matter of these oil lands."

"I subscribed for twenty-five acres of oil land," wrote an enlisted man in the army, "to be filled on at \$2 per acre. I have already paid \$10 and will pay \$10 more this pay day. The land is supposed to be United States government land."

"Another correspondent who had begun to become suspicious of an oil development scheme wrote:

"What steps would I take to get my money back? My wife and I have paid in \$120 and we cannot lose it. As the association claimed the government had granted it the permit to develop, I cannot see why the government is not liable to be obliged to refund the money. As it has been some time since the filing, possibly the association has been operating, and if so all is well. However, I can get no communication from them."

Explains Permit.

"An oil and gas application is the holder's claim to the right to prospect on 2,500 acres of public land. This is filed in the local land office with a description of the land. A permit is his right to prospect which grows out of the application. The law requires that drilling be done progressively within time limits. Upon discovery of oil, the permittee is entitled to a lease, paying the government a royalty on all oil produced."

"It is admitted that many permits have been acquired by legitimate developers and the government has received millions of dollars in royalty from their efforts. No censure is attached to them. But upon the passage of the general leasing act, thousands of applications for prospecting permits were filed for land in so-called 'wildcat' territory, which, by the way, is land that has no visible evidence of containing oil and gas."

"These applications were filed in many instances without geological examination and by individuals without financial means of complying with the drilling requirements of the law. They had no special reason to believe that oil was present. Actual development, obviously, was not their purpose. Apparently, the hope was to obtain permits and hold them until some one had tested land for oil and gas in the vicinity, which would enable them to sell out at a large profit or secure a royalty on

any oil that might be produced on their own area by others.

"When these permits were canceled for lack of development work, the lands would be sold upon application. Upon the failure of the second tentative to do the necessary prospecting work to hold the land, a third crop of applications might be filed, thus holding the land indefinitely without development."

"In the early days, when permits were canceled, the land became subject to another filing by the qualified applicant at the district land office. The practice was criticized because certain people might obtain advance information as to when the permit was to be canceled and thus have an advantage over others. Later, the General Land Office allowed all interested parties to file on a canceled area, awarding the land to the individual whose number was first drawn."

"To take advantage of this situation interested persons or companies obtained the applications of hundreds of people whom they could control. It was like buying a multitude of chances in a lottery. The greater the number of controlled applicants at the time of drawing the better would be the chances of an individual or company getting the land. In one drawing there were 7,000 applications filed for a single tract of land—another evidence of pure speculation on behalf of the applicants. To circumvent this a \$10 filing fee was required of each applicant at drawings in recent years, which materially reduced the number."

Efforts to Safeguard the Public.

"That the general leasing law has been used by many unscrupulous persons and associations for their own special benefit and to the detriment of those induced to enter into their schemes has long been apparent to the Department of the Interior, and every means possible has been taken to safeguard the public. Some of the schemes violate the general laws against fraud rather than the public land laws. They may involve an improper use of the mails and so need to be prosecuted by the Post Office Department. They are carefully watched by the authorities who enforce the various state and federal laws with which they come into conflict."

"A correspondent who is a mining engineer and geologist wrote the department as follows:

"I found that every available acre of public land which was within ten miles had been tied up, with permits overlapping one another so that in places they were two or three deep and over lands that had been taken as grazing homesteads or the mineral rights withheld. The parties who had obtained the permits were boomers, men without any knowledge or experience in oil structures or lands, without any money or backing or standing to obtain any and whose sole object was to get one to try it out for a little cash and agreement to get a share of the royalties. They would hold the permits as long as they could and then come back for renewal without even so much as digging a five-foot hole on them."

"In one instance an attorney prepared applications in blank or had them signed by people scattered through several states and forwarded to him. He held them until such time as he could discover from the district land office records lands which were subject to filing and then inserted the description of the land in the application. If the application had been executed some time in advance the date would be changed so as to conform more nearly to the time of the filing of the application. Usually these applications were accompanied by a power of attorney given to him by the applicant. In each instance the attorney would retain for himself a certain royalty interest and the holder of the application would have little to say as to the operations under the application or permit. Thus one man might con-

trol thousands of acres embraced in the applications and permits. The purpose of the law, that of giving individual citizens a chance to acquire valuable land, was thus interfered with."

Interest in Associations.

"Another group of persons advertised extensively that government oil land might be had at a nominal cost, that every citizen had a right to claim his share, that the promoters would show the way to great profits through these claims. They cited outstanding successes of others on government land. They proposed to organize associations, which they induced hundreds of people throughout the United States to join. Interest in these associations were sold for \$2 an acre, not more than 100 acres going to any one person. They advertised that the interest holders would have nothing to do except to draw the royalties when oil was discovered, the backers of the association attending to all the details looking toward compliance with the terms of the permit."

"The filing of an oil and gas application for permit for 2,500 acres cost \$2 in fees. The association under this scheme would thus make a profit of \$1,988 on each application filed. The evidence is that these associations have done little more than file the applications. Their purpose, evidently, has not been oil development. The investors in their associations have taken long chances of getting any return on their investments, even where the associations have carried on development work, for all such applications have been filed on lands within strictly wildcat territory."

"The exploitation of the public through these permits to prospect will be automatically stopped by the application of President Hoover's oil conservation policy. Under that policy permits to prospect are not to be granted. Since they are not to be granted promoters will not be able to profit because of any alleged prospects of wealth that might lie in them. One element of speculation that is likely to be a part of the development of oil and mining areas will have been removed."

Woman Works at Art of Hand Brickmaking

London.—Mrs. Bennie Gibbs of Crossways Farm, Ingham, is said to be the only woman in England working at the art of hand brickmaking. Her brickyard, which she inherited from her husband after his death a few years ago, has an output of 500,000 bricks a year. She takes samples of her work around in an automobile to builders and architects.

California may erect a shrine near San Clemente, where the first Christian baptism in the state occurred 1769.

SOURCE OF GAS WHICH KILLED TWO A MYSTERY.

El Paso, Tex., June 21 (AP).—The source of hydrogen sulphide gas which took the lives of two children and overcame sixteen other persons at the little Mexican settlement of Ascarate, near here, Wednesday, remained a mystery to investigators today.

Following an impromptu court of inquiry convened yesterday by city and county officials at which chemists identified the gas, United States Army gas experts from Fort Bliss were detailed to assist the investigators in their efforts to determine its origin.

Officials of a gas line company and

a refinery near the settlement, the court of inquiry an examination revealed no leaks in their pipes.
